

Acknowledgement

I express my sincere and humble gratitude to Professor Bishwanath Chakroborty, Immuno-Phytopathology Laboratory, Department of Botany, University of North Bengal, for his priceless guidance, advice, unconditional help and moral support without which I hardly could make my venture a success.

I also convey my gratitude to Professor Usha Chakroborty, Department of Botany, for her valuable advice and suggestions which helped me a lot.

I would like to thanks Prof. A. P. Das, Head of the Department of Botany for his kind help and co-operation and I individually convey my heartfelt thanks to all other teachers of the Department of Botany for their kind co-operation.

I am also thankful to Department of Science and Technology, Ministry of Science and Technology and Government of India for financial support.

My thanks go to Dr. A. N. Ghose, Deputy Director of Electron Microscopy, National Institute for Cholera and Enteric Disease (NICEED), Kolkata for rendering Transmission Electron Microscopic facility (TEM) regarding my research work.

I also thank Dr. R. B. Dhar, Head of the Department, Science and Instrumentation, Jadavpur University, Kolkata, for helping me with Scanning Electron Microscopy (SEM).

I also want to thank Ms. Arpita Panda and Mrs. Sraboni Chakroborty, for their kind help in Transmission Electron Microscopy and Scanning Electron Microscopy respectively.

I convey my thanks to Mr. Robert Reeder, Global Plant Clinic Senior Diagnostician, Diagnostic and Advisory Laboratory, CABI, Bioscience, UK Centre, United Kingdom, for the identification of my culture.

I collectively want to thank all the research scholars of the department, my friends and well-wishers for their kind help and co-operation. I also thank field men for their kind help during field works.

Lastly, I wish to express my gratitude to my parents, family members and my husband for their constant encouragements, co-operation, and moral supports which helped me for the completion of this work.

Place: Immuno-Phytopathology Laboratory

Date: September 7, 2005
