ACKNOWLEDGEMENT ..	(I)
SUMMARY ..	(III)
A SHORT DISCUSSION ON THE METHODS OF PREPARATION, PROPERTIES AND STRUCTURALASPECTS OF ORGANOTIN COMPLEX COMPOUNDS.	
Introduction ..	1
Organotin derivatives of oximes and Schiff bases ..	6
Organotin oxinates ..	9
Organotin tropolonates, kojates, dithiocarbamates and β -diketonates	14
Organotin derivatives of pyridine carboxylic acids and other ligands	17
Organotin hydroxamates ..	22
Organotin dithizonates ..	25
Scope of present investigation ..	27
EXPERIMENTS AND DISCUSSIONS OF THE PRESENT INVESTIGATIONS	
<u>PART - I ORGANOTIN DIPHENYL CARBAZONATES</u>	
1. Preparation of stannic chloride	30
2. Preparation of stannic bromide	31
3. Preparation of stannic iodide	31
4. Preparation of Tetraphenyl tin	31
5. Preparation of Tetra-para-tolyl tin	31

	Page
6. Preparation of Triphenyl tin chloride	31
7. Preparation of Tribenzyl tin chloride	32
8. Preparation of Tri-para-tolyl tin chloride	32
9. Preparation of Bis-(triphenyl tin) oxide	32
10. Preparation of Bis-(tripropyl tin) oxide	32
11. Preparation of Diphenyl tin dichloride	32
12. Preparation of Diparatolyl tin dichloride	33
13. Preparation of Dibenzyl tin dichloride	33
14. Preparation of Diphenyl tin oxide	33
15. Preparation of Dibenzyl tin oxide	33
16. Preparation of Dibutyl tin oxide	33
17. Preparation of Dimethyl tin oxide	34
18. Preparation of Diparatolyl tin oxide	34
19. Preparation of Dibutyl tin dithiocyanate	34
20. Preparation of Dimethyl tin dithiocyanate	34
21. Tripropyl tin diphenyl carbazonate	35
22. Tributyl tin diphenyl carbazonate	37
23. Tricyclohexyl tin diphenyl carbazonate	37
24. Triphenyl tin diphenyl carbazonate	38
25. Triparatolyl tin diphenyl carbazonate	40
26. Tribenzyl tin diphenyl carbazonate	41
27. Dimethyl tin bis-diphenyl carbazonate	41
28. Dibutyl tin bis-diphenyl carbazonate	43

29. Dicyclohexyl tin bis-diphenyl carbazonate	44
30. Diphenyl tin bis-diphenyl carbazonate	45
31. Diparatolyl tin bis-diphenyl carbazonate	46
32. Dibenzyl tin bis-diphenyl carbazonate	48
33. Dimethyl chloro tin diphenyl carbazonate	49
34. Dimethyl thiocyanato tin diphenyl carbazonate	49
35. Dibutyl chlorotin diphenyl carbazonate	50
36. Dibutyl bromo tin diphenyl carbazonate	51
37. Dibutyl thiocyanato tin diphenyl carbazonate	52
38. Diphenyl chlorotin diphenyl carbazonate	53
39. Diparatolyl chlorotin diphenyl carbazonate	53
40. Monophenyl tin tris-diphenyl carbazonate	54
IR SPECTRAL DATA OF THE COMPOUNDS ..	55
RESULTS AND DISCUSSIONS ..	59
REFERENCES ..	77
<u>PART II - LIGAND EXCHANGE STUDIES</u>	
Introduction ..	93
Materials and methods ..	105
1. Reaction of triphenyl tin oxinate with dithizone ..	107
2. Reaction of diphenyl tin dioxinate with dithizone ..	108
3. Reaction between diphenyl tin bis- diphenyl carbazonate and dithizone	109

	Page
4. Reaction of dimethyl chlorotin diphenyl carbazone with dithizone	111
5. Reaction between diphenyl tin bis-(N-phenyl benzohydroxamate) and dithizone	112
6. Reaction of triphenyl tin N-phenyl benzohydroxamate and dithizone	113
7. Reaction between triphenyl tin dithizonate and diphenyl carbazone	114
8. Reaction between diphenyl tin bis-dithizonate and diphenyl carbazone	115
9. Reaction between diphenyl tin bis-diphenyl carbazone and oxine	116
10. Reaction of dibutyl tin bis-diphenyl carbazone with oxine ..	117
11. Reaction between triphenyl tin oxinate and diphenyl carbazone ..	118
12. Reaction between dimethyl tin bis-(N-phenyl benzohydroxamate) and oxine	119
13. Reaction between dimethyl tin bis-(N-phenyl p-nitro benzohydroxamate) and diphenyl carbazone ..	120
14. Reaction between dimethyl tin bis-diphenyl carbazone and N-phenyl p-nitrobenzohydroxamic acid ..	122
15. Results and Discussions ..	124
