

## **A C K N O W L E D G E M E N T**

Investigations presented in this thesis were carried out by the author at the Pesticide Research Laboratory, Department of Chemistry, University of North Bengal, Raja Ramohunpur, Dist. Darjeeling.

The author takes this opportunity to express his deep sense of gratitude and thankfulness to Bimal Kumar Das, D.Sc., Professor of Chemistry, University of North Bengal, for his continuous guidance, valuable suggestions, attention and encouragement during the progress of the work.

The author sincerely thanks Prof. A.K. Ghosh, Department of Chemistry, North Bengal University, for his interest and encouragement.

The author is thankful to Prof. B. Dasgupta, Principal, Darjeeling Govt. College, Darjeeling, for valuable suggestions on insecticidal testing and histopathological studies.

The author wishes to express his gratitude and indebtedness to:

Prof. M. Eto, Department of Agricultural Chemistry, Kyushu University, Fukuoka, Japan, for helping the author to get a number of reprints.

Dr. P. Roy, Lecturer, Department of Zoology, Raiganj University College for valuable suggestions on pesticidal activity.

(II)

Dr. S. Das, Instrumentation Officer, Department of Chemistry, University of North Bengal, for excellent technical help.

Central Drug Research Institute, Lucknow for Mass and NMR spectra of the compounds.

A large debt of gratitude is owed to my co-research workers for their active assistance. I have taken advantage of the generosity of too many of them to list them individually, but I should like to thank Mr. Tathagata Pandit and Mr. Nilotpal Sarma for their painstaking assistance in drawing the figures and Miss Sutapa Misra, Mrs. Jhinuk Dasgupta and Mr. Dhan Bahadur Khawas for helping in calculation and analysis. Specific thanks to Mr. M. Chakraborty for typing the manuscript.

I am grateful to Environment and Forest Department, Govt. of India for awarding me a fellowship under Coordinated Eco-Development Centre (Sikkim) Programme through University of North Bengal.

The author gratefully acknowledges the inspiration and constant encouragement of his elder brother Mr. Dwipen Bhattacharya during the course of the work. Without his keen interest it would not have been possible to present the thesis in its present form.

Finally the author expresses his sincere regards to his parents whose kind blessings ceaselessly showered on the author during his work.
