

CONTENTS

Acknowledgements	I
Preface	III
<u>CHAPTER-I</u>	INTRODUCTION		
1.1	Extensive air shower	...	1
1.1.1	Electromagnetic component	...	3
1.1.2	Muon component	...	3
1.1.3	Hadron component	...	4
1.1.4	Cerenkov light	...	5
1.1.5	Other components	...	6
1.2	Simulation studies of EAS	...	7
1.3	Present work	...	8
	References	...	10
<u>CHAPTER-II</u>	A SUMMARY OF RECENT MEASUREMENTS OF EAS ELECTRONS AND MUONS		
2.1	Introduction	...	14
2.2	Distribution of electrons in EAS	...	14
2.3	Distribution of muons in EAS	...	17
	References	...	20
<u>CHAPTER-III</u>	THE EXPERIMENTAL ARRANGEMENT		
3.1	Introduction	...	25
3.2	The air shower array	...	25

3.3	The electron density detectors : Scintillation counter	...	26
3.4	Magnetic spectrograph unit	...	27
3.5	Neon flash tube chamber : Muon detector	...	27
3.6	Solid-iron magnets	...	28
3.7	Measurement of the magnetic field		
	(a) Variation of magnetic field with excitation current	...	29
	(b) Variation of magnetic field B	...	29
	(c) Leakage of magnetic field in air	...	30
3.8	The neon flash tubes		
	(a) The principle of operation	...	31
	(b) Characteristics of the neon flash-tube	...	33
	(c) The application of the flash- tubes in the magnetic spectrograph	...	35
3.9	The description of control electronics for EAS array		
	(a) Shower selection and electron density measuring system	...	37
	(b) Electronic circuits connected with magnetic spectrograph unit	...	39
3.10	The calibration of the density detectors	...	40
3.11	The alignment of the magnetic spectrograph	...	41
3.12	Calculation of the triggering probability	...	43
3.13	Estimation of the effective detection area	...	44

3.14	Maintenance of the apparatus	...	45
	References	...	46
<u>CHAPTER-IV</u>	<u>DATA ANALYSIS AND ERROR ESTIMATION</u>		
4.1	Introduction	...	47
4.2	Shower data analysis	...	47
4.3	Muon data analysis	...	52
4.4	Maximum detectable momentum of the spectrograph	...	53
4.5	The measurement with zero magnetic field	...	56
4.6	Momentum measurement technique	...	56
4.7	Estimation of errors on shower parameters	...	58
4.8	Artificial shower analysis	...	58
	References	...	60
<u>CHAPTER-V</u>	<u>EXPERIMENTAL RESULTS</u>		
5.1	Selection criteria	...	61
5.2	Distribution of age parameter	...	62
5.3	Energy spectrum of primary cosmic rays		
	(a) Determination of shower size	...	62
	(b) Estimation of flux	...	63
	(c) Estimation of primary energy from shower size	...	65
5.4	Lateral distribution of electrons	...	66

5.5	Muon density in showers	...	67
5.5.1	Estimation of muon density	...	67
5.5.2	Lateral distribution of muons in showers	68
5.6	Size dependence of total number of muons	70
5.7	Discussion	72
	References	75
