PREFACE	
LIST OF TABLES	X-XII
LIST OF FIGURES	XIII-XIV
LIST OF PLATES	XV
INTRODUCTION : :	1-8
The Study Area	
Objectives	
Methodology	
Scope of the Study	
Historical Background of Horticulture in India.	
Design of the Thesis	
Limitations.	
CHAPTER-I : <u>PHYSICAL FACTORS AND HORTICULTURAL SET UP:</u>	
Introduction -	9-37
1.1. <u>Relief</u>	
1.1.1. Hills in the North	
1.1.2 The Plateau tracts	
1.1.3. The Plains	
a) Terai plain, b) Northern Plain	
c) Rarh Plain, d) Ganga delta.	
1.1.4. Sandy Coastal Plain.	
1.1.5. Flood Plains	
a) Flood Plain of North Bengal	
b) Central Plain, c) Deltaic Area	
1.2. <u>Drainage</u>	
1.2.1. Snowfed Rivers	
1.2.2. Rainfed Rivers	
1.2.3. Tidal Rivers	
1.2.4. Ground water depth	

1.3. Climate

1.3.1 Temperature

1.3.2. Pressure

1.3.3. Rainfall

1.3.4. Agro climatic zones of West Bengal

1.4. Soils

1.4.1. Brown Hill Forest Soil

1.4.2. Terai Soil

1.4.3. Red & Yellow Soils

1.4.4. Grilly & Gravelly Soils

1.4.5. Alluvial Soils, (a) Ganga alluvium

b) Vindhya alluvium, c) Deltaic  
alluvium or coastal soil.

1.5. Horticultural Zones

1.5.1. Northern Hilly Region

1.5.2. Terai Region

1.5.3. Alluvial Region of Central & South  
Bengal.

1.5.4. Western lateritic tract

1.5.5. Southern Coastal Region.

1.6. Climatic Factors required for Horticulture

1.6.1. Heat

1.6.2. Light

1.6.3. Humidity

1.6.4. Wind

1.6.5. Hailstorm

1.7. Orchard Plan

1.7.1. Layout

1.7.2. Plant Selection

1.7.3. Propagation

1.7.4. Cultural Practice

1.7.5. Training & Pruning

1.7.6. Plant regulators

Conclusion

CHAPTER-II : FRUIT CULTURE

38-74

Introduction -

2.1. Mango

2.1.1. Early history

2.1.2. Climate and Soil

2.1.3. Cultivation

2.1.4. Plucking and Packing

2.2. Banana

2.2.1. Area under Banana

2.2.2.a) Environmental Factors, b) Soil

2.2.3. Cultural Practice

a) Propagation; b) Manuring

c) Irrigation , d) Fruiting

e) Inter-cropping.

2.2.4. Varieties of Banana

2.2.5. Pest Control

2.2.6. Marketing

2.3. Pineapple

2.3.1. Environmental conditions

2.3.1. a) Temperature and Precipitations

b) Soil

2.3.2. Propagation

2.3.3. Cultural Practice

2.3.3.a) Planting Plan, b) Weeding

c) Harvesting

2.3.4. Varieties of pineapple

2.3.5. Manure.

2.4. Lichi

2.4.1. Climate and Soil

2.4.2. Propagation

2.4.3. Pest Control

2.4.4. Marketing

Contd....

2.5. Guava

- 2.5.1. Area coverage
- 2.5.2. Climate and Soil
- 2.5.3. Cultural Practice
- 2.5.4. Variety grown
- 2.5.5. Plucking and Packing
- 2.5.6. Pest Control

2.6. Orange and other citrus fruits

- 2.6.1. Climate and Soil
- 2.6.2. Cultural Practice
- 2.6.3. Varieties grown

2.7. Temperate Fruits

- 2.7.1. Pears
- 2.7.2. Peach
- 2.7.3. Plum

2.8. Other Miscellaneous

- 2.8.1. Papaya
- 2.8.2. Loquat
- 2.8.3. Sapota
- 2.8.4. Jackfruit

Conclusion

CHAPTER - III : VEGETABLES

75-89

Introduction

3.1. Earth vegetables

- 3.1.1. Roots : a) Beet, b) Carrot  
c) Raddish, d) Turnip  
e) Sweet potato.

3.1.2. Underground Stems

- a) Potato, b) Onion, c) Garlic

Contd.....

3.2. Harbage vegetables

- 3.2.1. Asparagus
- 3.2.2. Cabbage
- 3.2.3. Cauliflower
- 3.2.4. Spinach
- 3.2.5. Lettuce

3.3. FRUIT VEGETABLES

- 3.3.1. Tomato
- 3.3.2. Egg plant
- 3.3.3. Okra
- 3.3.4. Cucumber
- 3.3.5. Pumpkin and Squash
- 3.3.6. Capsicum, Peppers
- 3.3.7. Water melon
- 3.3.8. Garden Pea
- 3.3.9. Snap Bean
- 3.3.10. Lima Bean
- Conclusion

CHAPTER - IV : FLORICULTURE

90-101

Introduction -

- 4.1. History of Floriculture in India
  - 4.1.1. Hindu classics
  - 4.1.2. Foreign contribution in our Floriculture
- 4.2. Cultural Practice
  - 4.2.1. The production of cutflowers
  - 4.2.2. Potted plants
  - 4.2.3. Growing and forcing of bulbs and corns.
  - 4.2.4. Production of bedding plants
- 4.3. Suitable plantations
- 4.4. Method of Cultivation

Contd....

- 4.4.1. Seasons
  - 2. Sowing of seeds
  - 3. Pricking out
  - 4. Diseases and Pesticides
- 4.5. Floriculture in West Bengal
  - 1. Flower zones of West Bengal
    - a) Panskura-Kolaghat Region (Medinipur)
    - b) Haora Region; c) Ranaghat Region(Nadia)
    - d) Hilly Areas of Darjeeling and Kalimpong (Darjiling)
- 4.5.2. Other areas
- 4.6. Area and production or flowers.
- Conclusion

CHAPTER-V : ECONOMICS OF HORTICULTURE

102-134

Introduction -

- 5.1. Harvesting or plucking
- 5.2. Packing
- 5.3. Workers
- 5.4. Transport
- 5.5. Marketing systems
  - 1. Fariah (Village merchants)
  - 2. Aratdar
  - 3. Wholesalers
  - 4. Retailers
  - 5. Market Study in Calcutta
- 5.6.1. New Market
  - 2. Gariahat market
  - 3. Kole Market
  - 4. Phal Patti
- 5.7. Storage and Preservation
- 5.8. Associated Industries
  - 1. Canning
  - 2. Pickling
  - 3. Sugar concentration

- 5.9. Training Programme
- 5.10. Crop concentration
  - 1. Mango
  - 2. Banana
  - 3. Guana
  - 4. Citrus fruits
  - 5. Papaya
  - 6. Sapota
  - 7. Jackfruit
  - 8. Lichi
  - 9. Pineapple
  - 10. Orange
  - 11. Temperate & other fruits.
- 5.11. Yield Rate
- Conclusion

CHAPTER-VI : MAJOR PROBLEMS IN HORTICULTURE

135-147

Introduction -

- 6.1. Environmental Problems
  - 1. Light
  - 2. Heat and temperature
  - 3. Rainfall
  - 4. Humidity
  - 5. Wind
  - 6. Slope and Altitude
  - 7. Soils
  - 8. Insect Pests and diseases
- 6.2. Practice to Induce fruiting
  - 1. Pollination problem
  - 2. Mulching of soil
  - 3. Manuring and Fertilization.
  - 4. Root Prunning
  - 5. Bending system

- 6.3. Locational Problems
  - 6.3.1. Nn. Hilly Region
  - 6.3.2. Terai Region
  - 6.3.3. The Alluvial zone of Central and South Bengal.
    - a) Problems in the Mango orchards.
- 6.4. Post Harvest Problem
- 6.5. Problems in Marketing
- Conclusion.

CHAPTER-VII : REVIEW OF HORTICULTURE

148-183

- Introduction
- 7.1. Early History
- 7.2. Planting of fruit trees.
- 7.3. Achievement in State Horticultural Stations.
  - 7.3.1. Mango breeding. 2. Other fruits
    - 3(a) Propagation; b) Plant protection.
    - 7.3.2(c) Plant treatment
    - 3. Development works
    - 4. Achievement in Banana Research Station, Chuchura (Hugli)
    - 5. Achievement in Pineapple Research Station, Mohitnagar (Jalpaiguri)
    - 6. Achievement in vegetable Research Station, Kalimpong.
    - 7. Achievement in Horticultural Research Station, Taldangra.
    - 8. Expenditure for the development programme in West Bengal
    - 9. Districtwise allocation of finance for horticulture.
      - 7.9.1. Darjiling District
      - 2. Jalpaiguri district.

3. Kochbihar district
4. North and South Dinajpur district
5. Malda District
6. Murshidabad District
7. Nadia
8. Hugli District
9. Haora District
10. Barddhaman District
11. Birbhum District
12. Bankura District
13. Medinipur District
14. Puruliya District
- 15(a). 24-Parganas (North), (b) 24-Parganas  
(South)

7.10. Promising Future  
Conclusion

CHAPTER-VIII: FUTURE PROSPECT IN HORTICULTURE 184-197

Introduction

- 8.1. Regional Studies
    - 8.1.1. Northern Hilly Region
    - 8.1.2. Terai zone
    - 8.1.3. Alluvial Regions of Central and  
lower Bengal.
    - 8.1.4. Lateritic Zone
    - 8.1.5. Southern Coastal Zone
  - 8.2. Career opportunities in Horticulture
  - 8.3. Proposed suggestions
  - 8.4. Career in Horticulture in West Bengal
  - 8.5. Role of Agri-Horticultural Society.
- Conclusion

CHAPTER-IX CONCLUSION 198-208

- Reference 209-213
- Bibliography 214-220
- Appendix I-XXVI
