

ACKNOWLEDGEMENT

The research work being reported in this thesis was carried out at the Department of Chemistry, University of North Bengal.

The author takes the opportunity to record his gratitude to Dr. B. P. Pradhan, Reader in chemistry, for his unstinted help, sincerest guidance, constructive interpretation and keen interest throughout the research period.

The author is also grateful to Dr. S. N. Bose, currently Head of the Department and Dr. S. C. Roy, Professor of Chemistry, for their helpful discussion and good advices.

The author is highly indebted to Dr. Peter Weyerstahl, Institut für Organische Chemie, Technische Universität, Berlin, Germany for the mass, ^1H NMR and ^{13}C NMR spectra recorded in this thesis, to Dr. Alok Majumder, scientific officer, chemistry department for recording the IR spectra and University Grants Commission for financial assistance during the research duration.

The author duly acknowledges various sorts of help from Dr. K. K. Das, Dr. S. K. Saha, lecturer of this department, Dr. (Mrs.) S. Dutta, Research associate and his co-workers Dr. S. Chakraborty, Sri P. Ghosh and to his teacher Mr. R. P. Sinha, seniormost teacher in Siliguri College.

The author expresses his thanks to his fellow research workers Sri Atis Chakraborty, Sri P. Muhuri, Sri M. Basak, Miss S. Misra, Miss S. Guha, Dr. (Mrs.) J. Dasgupta, Sri A. Sarkar, Sri T. Thokdar, Sri B. Das and his friends Sri B. Pal, Sri M. K. Saha and Sri A. Majumder for their various help.

The author pays due respect to his father, late Dr.A.B.Roy, for his inspiration and grateful to his brother Amaresh Roy, sister Susmita Ghosh, brother in-law Sri Aloke Ghosh for their kind help.

Finally, the author thanks to his youngest brother Amitesh Roy, for drawing most of the structures given in this thesis.

The shortcomings, if any, are entirely the author's.
