

**PART-I (Introduction)**

1. General Introduction	..	1
2. Reaction with cholinesterase	..	3
3. Chemical hydrolysis	..	7
4. Infra-red spectra	..	9
5. NMR - spectra	..	11
6. Mass spectra	..	21
7. References	..	23

**PART-II (Review on saligenin cyclic phosphorous esters having pesticidal activity)**

1. Introduction	..	30
2. Discovery of salithion and related compounds	..	31
3. Synthesis of saligenin cyclic phosphorous esters	..	36
4. Other saligenin cyclic phosphorous esters	..	41
5. Chemical and biological properties of salithion	..	43
6. Chemical hydrolysis of saligenin cyclic phosphorous esters		57
7. Biological activities and structural relationship	..	61

	Page
7(a) insecticidal activity ..	65
7(b) nematocidal activity ..	68
7(c) fungicidal activity ..	69
7(d) anti - III enzyme activity ..	70
7(e) anti esterase activity ..	73
7(f) synergistic activity ..	74
Tables ..	77-78
References ..	78

### PART - III

Aim and object of the present investigation ..	102
1. <u>Materials and Methods:</u> ..	106
2. Purification of the solvents and chemicals ..	106
3. Preparation of thiophosphoryl chloride ..	106
4. Preparation of 2-hydroxy-5-nitrobenzyl alcohol ..	106
(i) Preparation of 2-hydroxy-5-nitrobenzyl chloride ..	107
(ii) Hydrolysis of 2-hydroxy-5-nitrobenzyl-chloride ..	109
5. Preparation of amido-thiophosphoro-dichloridates ..	111
(i) Cyclohexylamido-dichlorophosphorothionate ..	113

(ii)	Morpholine-dichlorophosphorothionate ..	114
(iii)	Diethylamido-dichlorophosphorothionate ..	114
(iv)	Diethylamido-dichlorophosphorothionate ..	115
(v)	Isopropylamido-dichlorophosphorothionate ..	116
5.	Preparation, chemical analysis and some properties of 2-amido-6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	117
6.(a)	General procedure ..	117
6.(b)	Preparation, chemical analysis and some properties of individual amido phosphorothionates ..	119
(i)	2-Cyclohexylamido-6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	119
(ii)	2-Morpholino-6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	121
(iii)	2-Diethylamido-6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	122
(iv)	2-Diisopropylamido-6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	123
(v)	2-Isopropylamido 6-nitro-4H-1,3,2-benzodioxaphosphorin-2-sulphide ..	124

7. Spectroscopic method (UV, IR, NMR and Mass)	..	125
8. Antifungal activity	..	126
9. Oral toxicity tests on rats and cockroaches	..	127
10. Chemical hydrolysis of nitro saligenin cyclic amido-phosphorothionate	..	129
(a) Experimentals	..	130
11. Anticholinesterase activity	..	131
(a) Anticholinesterase activity in housefly head homogenate		132
(b) Anticholinesterase activity in blow-fly head homogenate		136
12. Anticholinesterase activity in goat whole blood	..	137
13. Cytotoxicity tests	..	138
<b>B : <u>Results and Discussion</u></b>		
1. Synthesis	..	139
2. Structure determination by spectroscopic method	..	142
2(a) Spectral data	..	143
(1) 2-Cyclohexylamido-6-nitro-4H,1,3,8-benzodioxaphosphorin-2-sulphide	..	143
(11) 2-morpholino-6-nitro-4H,1,3,8-benzodioxaphosphorin-2-sulphide		144
(111) 2-diethylamido-6-nitro-4H,1,3,8-benzodioxaphosphorin-2-sulphide		145

(iv)	2-dimethylamido-6-nitro 4H, 1,3,2-benzodioxaphosphorin-2- sulphide	..	143
(v)	2-Isopropylamido-6-nitro 4H, 1, 3,2-benzodioxaphosphorin-2- sulphide	..	150
2.(b)	Discussion on IR spectra	..	152
2.(c)	Discussion on mass spectra	..	155
2.(d)	Discussion on NMR spectra	..	158
3.	Antifungal activity	..	163
4.	Cytotoxic property	..	164
5.	Insecticidal activity	..	167
6.	Acute oral toxicity on rats	..	168
7.	Anticholinesterase activity	..	170
8.	Chemical hydrolysis	..	177
9.	Summary and conclusion	..	181

### Tables

(a)	Acetyl cholinesterase inhibition in Housefly-head homogenate (HPACHE)	..	187-191
(b)	Acetyl cholinesterase inhibition in blowfly head homogenate	..	192-196
(c)	Acetylcholinesterase inhibition in post-whole blood.	..	197-201
(d)	Chemical hydrolysis	..	202-220
