

## A C K N O W L E D G E M E N T

I take this opportunity to pay my heart-felt homage and offer my sincere thanks to Dr. J.L.Das Kanungo, Reader in Chemistry, University of North Bengal, for his valuable, ceaseless guidance and continued interest during the progress of the work.

I express my reverential acknowledgement with deep regard to my esteemed parents, Prof. G.Bhattacharjya and Mrs. M. Bhattacharjya for their constant encouragement in the present endeavour.

I acknowledge with grateful thanks the gift of the pure diquat sample supplied by the ICI Plant Protection Division, England. I am also indebted to Laporte Industries Ltd., U.K., Zonolite, South Carolina, U.S.A. and B.D.H. Chemicals Ltd., England for kindly providing with samples of Laponite, Vermiculite and Linde Molecular Sieve 13X respectively as gift for the work.

Grateful thanks are also due to the University Grants Commission, New Delhi, for the award of a Teacher Fellowship and University College, Raiganj, West Dinajpur, West Bengal, for granting leave. I acknowledge my deep sense of gratitude to the Head of the Department of Chemistry and the authorities of the University of North Bengal for laboratory facilities.

(II)

I am indebted to the Teachers, Teacher Fellows, Research Scholars and non-teaching staff of the Department, N.B.U., for their kind and generous help.

Finally, I find it a great pleasure to offer my loving thanks to my wife, son, daughter, brothers, sisters, friends and relatives for their constant inspiration and encouragement during the progress of the work.

Department of Chemistry,  
University of North Bengal,  
Darjeeling, West Bengal.
