

TABLE OF CONTENTS

DESCRIPTION:	PAGES
1. PREFACE (on the revised Thesis)	(1)
2. NOTATIONS AND DEFINITIONS	(2)
3. EXTENDED SYNOPSIS	(4)
3.1 INTRODUCTION TO THE PRESENT WORK	(4)
3.2 OBJECTIVE AND SCOPE	(5)
3.3 SUMMERY OF LITRATURE SURVEY	(5)
3.4 SUMMERY OF FORMULATIONS	(11)
4.PROBLEMS CONSIDERED IN THE THESIS	(20)
CHAPTER - I : NONLINEAR DEFORMATION ANALYSIS OF A SQUARE PANEL UNDER MECHANICAL LOADING .	
1.1.1 Introduction	(23)
1.1.2 Basic Governing Differential Equations	(23)
1.1.3 Boundary Conditions	(24)
1.1.4 Method of Solution	(25)
1.1.5 Determination of Constants A and B	(26)
1.1.6 Numerical Results	(28)
1.1.7 Observations and Discussions	(34)

NONLINEAR DEFORMATION ANALYSIS OF A SQUARE SANDWICH PANEL UNDER MECHANICAL LOADING.

1.2.1 Introduction	(36)
1.2.2. Basic Governing Differential Equations	(36)
1.2.3 Boundary Conditions and Method of Solution	(37)
1.2.4 Determination of Constants A and B	(38)
1.2.5 Numerical Results	(40)
1.2.6 Observations and Discussion	(46)

CHAPTER – II: NONLINEAR DEFORMATION ANALYSIS OF A SANDWICH SHELL PANEL UNDER MECHANICAL LOADING.

2.1.1 Introduction	(47)
2.1.2 Basic Governing Differential Equations	(47)
2.1.3 Boundary Conditions	(48)
2.1.4 Method of Solution	(48)
2.1.5 Determination of Constants L, M and N (for movable edges)	(49)
2.1.6 Numerical Results	(52)
2.1.7 Observations and Discussions	(58)
2.2.1 Determination of Constants L, M and N (for immovable edges)	(60)
2.2.2 Numerical Results	(63)
2.2.3 Observations and Discussions	(69)

**CHAPTER – III: THERMAL STRESSES AND NONLINEAR
THERMAL DEFORMATION ANALYSIS OF A
SHALLOW SHELL PANEL.**

3.1 Introduction	(70)
3.2 Basic Relations and Derivations of Governing Equations	(71)
3.3 Rectangular Panel Simply supported at the edges	(73)
3.4 Numerical Results	(77)
3.5 Observations and Discussions	(106)

**CHAPTER –IV: NONLINEAR THERMAL VIBRATIONS OF A
CIRCULAR PLATE UNDER ELEVATED
TEMPERATURE.**

4.1.1 Introduction	(109)
4.1.2 Derivation of Governing Field Equations	(109)
4.1.3 Method of Solution	(113)
4.1.4 Numerical Results and Discussions	(115)
4.1.5 Observations and Discussions	(127)

**NONLINEAR VIBRATIONS OF NON-HOMOGENEOUS
ELASTIC SHELLS UNDER SEVERE THERMAL LOADING.**

4.2.1 Introduction	(130)
4.2.2 Derivation of Dynamic Field Equations for a Heated Spherical Shell	(131)
4.2.3 Method of Solution	(135)

4.2.4 Evaluation of λ	(136)
4.2.5 Solution of Time Differential Equation	(136)
4.2.6 Numerical Results and Discussions	(137)
4.2.7 Observations and Discussions	(153)

CHAPTER –V: NONLINEAR VIBRATIONS OF IRREGULAR-SHAPED PLATES RESTING ON NON-LINEAR ELASTIC FOUNDATION.

5.1 Introduction	(158)
5.2 Basic Governing Differential Equation	(159)
5.3 Transformation of Equation into Complex co-ordinates	(159)
5.4 Boundary Conditions and Solution	(160)
5.5 Mapping Function Co-efficients	(162)
5.6 Numerical Results and Discussions	(162)
5.7 Observations and Discussions	(173)
6.1 BRIEF DISCUSSION ON RESULTS AND INTERPRETATION	(175)
6.2 CONCLUSION	(175)
6.3 RECOMMENDATION OF FUTURE WORK	(176)
REFERENCES	(177)
ACKNOWLEDGEMENT	(196)
