

## ACKNOWLEDGEMENTS

I wish to express my most sincere gratitude to Professor Ranjit Paul for his constant guidance and suggestions throughout the period of research work. I am also very much indebted to Dr.(Mrs.) Sukla Paul for many fruitful suggestions.

I wish to convey my sincere thanks to the authorities of the University of North Bengal for providing me with laboratory and library facilities, and the Council of Scientific and Industrial Research (India) and the University Grants Commission (India) for providing me with research fellowships.

I take this opportunity to convey my whole hearted thanks to the International Centre for Theoretical Physics (ICTP), Trieste, Italy for providing me with the facilities which enabled me to participate in the Spring College on Physics of Polymers, Liquid Crystals and Low-dimensional Solids (9 April - 20th. June, 1980), and for appointing me as a Junior Associate (1980-83), which enabled me to procure a large number of books in connection to my research works through the ICTP.

I am also grateful to Prof. M.E. Neubert and Prof. A. de Vries, Liquid Crystal Institute, Kent State University, U.S.A. for supplying the samples BHeCP, BOCP and BDeCP and also to Prof. M.Schadt of M/s. Hoffmann-La-Roche, Bessel, Switzerland for sending us samples BPCPP. Thanks are also conveyed to Professor H.Schenk of the University of Amsterdam for providing us with the molecular model kit.

I wish to extend my sincerest thanks to Dr.G.S.S.Murthi, Dr. Asoke Dasgupta and Mr. Robin Mukherjee of the Chemistry Deptt., University of North Bengal for their help in purifying the samples. Thanks are also conveyed to Dr. S.B. Roy of the Deptt. of Optics, Indian Association for the Cultivation of Science (IACS), Calcutta for permitting me to use the capacitance Bridge for Dielectric Measurements, and Dr. S.K. Roy, Mr. Pradip Brahma and Dr. Biswanath Mallik of the same department for their active co-operation in this regard. I am also thankful to Prof. Nirmalendu Ray Choudhury of the Inorganic Chemistry Department IACS for performing the DTA of the sample BPCPP, and ~~xxx~~ to Dr. D. Saran of Department of Physics, Indian Institute of Technology, Kanpur, for his keen interest in the work.

I am also grateful to Mrs. Basana Bhattacharjee, Mr. Ashim Kumar Zeminder and Mrs. Aparna Nandi of the Deptt. of Physics, University of North Bengal for their help in the laboratory and their collaboration in the works with CBOOA, Cholesterol Benzoate and Cholesterol Propionate, and BPCPP respectively, and to Mr. Sakti Pada Das, Mr. Rathindra Kumar Datta, Mr. Bimal K. Najumdar, Mr. Pradip K.Mandal, Mr. Mukul K. Mitra, Mrs. Krishna Bhattacharjee and many others of the Department of Physics, University of North Bengal and Mr. Pralay Kumar Roy of Indian Bank, Siliguri for their kind help and co-operation throughout the progress of the work.

I am also very much indebted to Mr. Sajal Kumar Sarkar, Senior Technical Assistant, Department of Physics, University of North Bengal for his constant help in the maintenance and repair of the instruments, and to Mr. G.C. Basak, and Mr. Badal Kumar Nag of the Central Workshop, University of North Bengal for fabrication of the X-ray camera and sample holder, the dielectric cell, the linear-cum-rotatory stage for densitometer, and other equipments.

I also wish to express my thanks to Mr. Surendra Choudhury for typing the thesis intime, and Mr. Naresh Ghosh for neat drawing of the figures.

Finally I express my gratefulness to my parents, brothers and sisters for their constant encouragement which gave me confidence throughout the ~~progress~~ progress of my research work.

Date 22.2.1983,

North Bengal University.
