

CONTENTS

<i>Preface</i>	:	i
<i>Chapter I : INTRODUCTION</i>		
1. Introduction	:	2
2. New Inflation and its problems	:	13
3. Aim of the work	:	21
4. Summary of the work	:	22
<i>Chapter II : CHAOTIC INFLATIONARY MODELS</i>		
1. Introduction	:	27
2. Field equations in KS-model	:	34
3. Chaotic inflation in KS-model	:	36
4. Conclusions	:	44
5. Recent developments in chaotic model	:	45
<i>Chapter III : HIGHER DERIVATIVE MODELS</i>		
1. Introduction	:	51
2. Field equations in the modified Starobinsky model	:	61
3. Cosmological Solutions		
(a) de Sitter solution	:	62
(b) Non-de Sitter solution	:	63
4. Conclusions	:	73
<i>Chapter IV : HIGHER DIMENSIONAL MODELS</i>		
1. Introduction	:	75

2. Field equations with Gauss-Bonnet terms	:	80
3. Cosmological solutions	:	86
4. A solution of the Cosmological constant problem	:	90
5. Summary of the results	:	92
6. Concluding remarks	:	93
<i>Chapter V : REFERENCES</i>	:	95
