

ACKNOWLEDGEMENT

I have received invaluable guidance and inspiration from several persons throughout the preparation of my thesis.

First of all I would like to express my deepest sense of gratitude to Dr. Swapna Mukherjee, Principal, Dr. Meghnad Saha College, Itahar, Uttar Dinajpur, who has been my friend, philosopher and guide during the preparation of this thesis.

My indebtedness is also due to Dr. Srikumar Mukherjee, Minister, Civil Defence, Govt. of West Bengal, whose help and encouragement was no less important for my research work.

Koel and Koena, sweet little daughters of Mr. and Mrs. Mukherjee, deserve a line of appreciation for bearing with the inconvenience caused to them during my sittings with their parents.

I heartily thank Dr. Gopal Chandra Mandal, Calcutta Port Trust, Calcutta, for helping me in different ways in my research.

I am grateful to Zahirul Islam, Reader, Department of Mathematics, Malda College, Malda, for having given me books, suggestion and encouragement.

I offer my sincere thanks to the University of North Bengal for giving me permission to submit my thesis.

I cannot but thank my wife Lipi and my dear children Bishal and Muskan for their constant cooperation and bearance throughout the preparation of this thesis.

Date: 16.7.04
