

Acknowledgement

At the beginning it is a great pleasure to express my sense of gratitude and indebtedness to my teacher and guide Prof (Dr) Samara Deb, the then Head of the Department of Anatomy, North Bengal Medical College & Hospital, for his continuous inspiration, deep sense of involvement, constructive criticism and valuable guidance throughout the tenure of my work. Without all these, this research work would not have been a reality.

I am grateful to my co-guide Dr. Asit Chandra Roy, Associate Professor, Department of Radiodiagnosis, North Bengal Medical College and Hospital, for his involvement, encouragement, criticism, valuable guidance and collection of data from ultrasonography in carrying out this study. Without all these, this thesis would not have been a reality.

I am grateful to my Principal, North Bengal Medical College and Hospital for giving me permission for this research work in this institution and extending generous help whenever needed. His continuous inspiration in performing this research work has helped me a lot.

I am very much grateful to Dr. Debi Sankar Ghosh Hajra, Associate Professor, Department of Radiodiagnosis, North Bengal Medical College and Hospital, for his continuous inspiration, collecting data from ultrasonography and deep sense of involvement throughout the tenure of my work, without all these, this thesis would not have been a reality.

(ii)

I am very much grateful to Dr. Partha Pratim Pal, Demonstrator, Department of Community Medicine and Dr. Hironmoy Roy, final year PGT Department of Anatomy, North Bengal Medical College & Hospital, for their active co-operation for preparation of the thesis.

I am thankful to all my colleagues of the Department of Anatomy and Radiodiagnosis of North Bengal Medical College and Hospital, for their active co-operation as and when required.

I must express my indebtedness to all the antenatal mothers whose co-operation was the mainstay behind completion of this thesis.

I also like to thank Mr. Subir Das Mahanta for printing and binding of this thesis.

Lastly I must confess that I have got a lot of help and co-operation from all the members of my family to complete this thesis.

DR. JAYANTA CHANGDAR
