PREFACE AND ACKNOWLEDGEMENT

“An Enquiry into the Living Conditions of Slum Dwellers in Siliguri Municipal Corporation Area with Special Reference to Health and Education” is a heartiest effort of the scholar to find out the situation of living conditions, health and education of the slum dwellers. The slum dwellers are an essential part of the city of Siliguri for the service they render to the city dwellers but their living condition is in an appalling state. The policy makers are required to give attention to the people living in the slums separately from the other city dwellers as their living condition is much poorer compared to the rest.

The research work required the cooperation and support of a number of persons. First of all the scholar would express her gratitude to her reverend teacher and supervisor Dr. Kanak Kanti Bagchi, Professor, Department of Economics, University of North Bengal for his constant support and guidance throughout her research work.

The scholar is also thankful to the staffs of the Library, University of North Bengal and Siliguri Municipal Corporation for giving access to the books, journals and data relevant to the research work.

The research work would not have been possible without the cooperation of the sample slum respondents during the field study (data collection), so the scholar is grateful to all of them.

The scholar also expresses her thanks to her mother Mrs. Sili Das for her constant support and encouragement, her husband, Mr. Biswanath Ranjan Sarkar and father, Late Mr. Mrinal Kanti Das for their cooperation during the period of study.
