ACKNOWLEDGEMENTS	
1. INTRODUCTION	1
1.1 Excellence and importance of Little Cormorant and Night Heron	5
1.2 Systematic position of Little Cormorant and Night Heron	6
1.3 Distribution of Little Cormorant and Night Heron	7
1.4 Objectives of present study	8
2. LITERATURE REVIEWED	9
3. STUDY AREA	11
3.1 Location	11
3.2 Establishment of sanctuary	11
3.3 Area	12
3.4 Boundary description	12
3.5 Meteorology	13
3.6 River and waterbodies	14
3.7 Geology	15
3.8 Soil	15
3.9 Vegetation	15
3.10 Fauna	16
4. GENERAL METHODS FOR OBSERVATION	17
4.1 Introduction	17
4.2 Selection of the study area	18
4.3 Study period	19
4.4 Daily observation schedule	19
4.5 Mode of observation	19
4.6 Equipment used	20
4.7 Methods in recording behaviour	21
5. PHYSICAL FEATURES	22
5.1 Introduction	22
5.2 Methods	22
5.3 Results and discussions	23

5.3.1	Age	23
5.3.2	Morphological features	23
5.3.3	Sex	26
6.	ECOLOGICAL AND BEHAVIOURAL ASPECTS OF FOOD AND FEEDING	27
6.1	Introduction	27
6.2	Methods	28
6.3	Results and Discussions	29
6.3.1	Traditional foraging grounds	29
6.3.2	Distance of foraging grounds from sanctuary	30
6.3.3	Time of foraging	32
6.3.4	Depth of foraging	33
6.3.5	Food items based on observations and stomach content and techniques of food capture in the breeding and non-breeding season.	33
7.	BEHAVIOURAL ECOLOGY OF REPRODUCTION	41
7.1	Introduction	41
7.2	Methods	42
7.3	Results and Discussions	42
7.3.1	Arrival of Birds in the sanctuary	42
7.3.2	Activities following arrival	43
7.3.3	Age of pair-forming birds	45
7.3.4	Mating type	45
7.3.5	Mating display	45
7.3.6	Copulation	50
7.3.7	Perpetuation of pair maintenance	51
7.3.8	Pair dissociation	52
7.3.9	Extra pair copulation (EPC)	53
8.	NESTING	54
8.1	Introduction	54
8.2	Methods	55
8.3	Results and Discussions	56
8.3.1	Nest-site selection	56
8.3.2	Nests at unusual site	58
8.3.3	Nest height	58
8.3.4	Role of sexes	58

8.3.5 Nest material	60
8.3.6 Nest construction	60
8.3.7 Nest distance	63
8.3.8 Nest defence behaviour	65
8.3.9 Nest sanitation	65
9. CLUTCH SIZE, EGG CHARACTERISTICS, LAYING AND INCUBATION	67
9.1 Introduction	67
9.2 Methods	67
9.3 Results and Discussions	69
9.3.1 Laying	69
9.3.2 Laying in relation to nesting settlement	70
9.3.3 Time of laying	70
9.3.4 Laying intervals	71
9.3.5 Factors affecting laying date	71
9.3.6 Behaviour of sexes	72
9.3.7 Egg	72
9.3.8 Clutch size	75
9.3.9 Incubation	76
10. HATCHING, GROWTH AND BEHAVIOURAL DEVELOPMENT OF YOUNG	79
10.1 Introduction	79
10.2 Methods	79
10.3 Results and Discussions	80
10.3.1 Hatching	80
10.3.2 Hatchling growth	84
10.3.3 Behavioural development	85
11. PARENTAL CARE	87
11.1 Introduction	87
11.2 Methods	87
11.3 Results and Discussions	88
11.3.1 Brooding	88
11.3.2 Feeding of young	88

12. HUMAN INTERFERENCE, CYCLONIC STORMS AND MANAGEMENT	94
12.1 Introduction	94
12.2 Methods	95
12.3 Protective measures of the sanctuary	95
12.4 Human interference	96
12.4.1 Indirect interference	96
12.4.2 Direct interference	97
12.5 Discussion	98
12.6 Cyclonic storms	99
12.7 Suggestions	99
13. SUMMARY	101
14. REFERENCES	105
15. PUBLICATIONS	
16. VITA
