

Ref. No.

Dated 17.03.2008

To whom it may concern

This is to certify that the present thesis entitled, "Some Aspects of Multiparticle Production in ^{32}S -Ag/Br Interactions at 200A GeV/c", is a Ph.D. (Science) dissertation submitted by Mr. Malay Kumar Ghosh (Registration no. AE11723 of 1992-'93). The research work presented in the thesis, is to some extent collaborative in nature. But major part of it has been carried out under my supervision at the Department of Physics, of the University of North Bengal. No part of the thesis has ever been submitted for obtaining a Ph.D. degree from this department. Mr. Ghosh has made significant contribution to every stage of the investigation, and he has fulfilled all the requirements to submit a Ph.D. thesis. To the best of my understanding, in character and disposition, Mr. Malay Kumar Ghosh is fit to submit his thesis for Ph.D. (Science) degree.
