

## LIST OF FIGURES

Sl. No.	Figure No.	Description	Page No.
1	1.1	Location of the study area.	7
2	1.2	Map showing Relief feature of the District Koch Bihar prepared based on SOI Topographical map of scale 1:250 000.	9
3	2.1	A Satellite view of the study area.	13
4	2.2	Map showing major contour plan of Koch Bihar.	14
5	2.3	Map showing major soil types of Koch Bihar District.	15
6	3.1	Total catchments area in sq. km (A) and discharge in cusec (B).of main rivers of Koch Bihar, (Ref. Table 3.2).	20
7	3.2	Formation of braided channel pattern of the River Jaldhaka-Mansai based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No.78F/8, R.F. = 1:178125.	23
8	3.3	Formation of braided as well as anastomosing channel pattern of the River Torsa and Jaldhaka based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No. 78 F/7, R.F. = 1:178125.	25
9	3.4	Formation of braided channel pattern of the River Jaldhaka-Mansai, Sutunga and Dharla based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No. 78F/3, R.F. = 1:178125.	28
10	3.5	A correlation between the relief and drainage condition based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No. 78F/11, R.F. = 1:178125.	30
11	3.6	Formation of braided channel pattern of the River Torsa and Baniadaha based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No. 78F/12, R.F. = 1:178125.	33
12	3.7	Formation of braided channel pattern of the River Sankosh and Raidak II based on Satellite Imageries of IRS 1C and 1D, LISSIII and	36

		LISS IV and SOI Topographical map No. 78F/15, R.F. = 1:178125.	
13	3.8	Map showing major rivers of Koch Bihar District.	38
14	3.9	Formation of braided channel pattern of the River Tista, Saniajan and Dharla based on Satellite Imageries of IRS 1C and 1D, LISSIII and LISS IV and SOI Topographical map No. 78B/15, R.F. = 1:178125.	40
15	4.1	Forest types in Koch Bihar District, (Ref. Table 4.1).	47
16	4.2	Types of crops in Koch Bihar District, (Ref. Table 4.2).	49
17	4.3	Land situation of the District Koch Bihar, (Ref. Table 4.3).	50
18	4.4	Various categories of water bodies in Koch Bihar District, (Ref. Table 4.4).	51
19	4.5	Subdivision-wise land use pattern of Koch Bihar District (Ref. Table 4.5).	54
20	4.6	Land use pattern of Koch Bihar District (Ref. Table 4.5).	54
21	5.1	Average annual rainfall (mm) of Koch Bihar District (1989 – 2008).	59
22	5.2	Month-wise average rainfall in Koch Bihar District 1997-2008.	61
23	5.3	Rainfall (mm) during the flood period in the year, 2000, (Ref. Tables 5.3–5.5).	65
24	5.4	Rainfall (mm) during the flood period in the year, 2001, (Ref. Tables 5.6–5.8).	69
25	5.5	Rainfall (mm) during the flood period in the year, 2002, (Ref. Tables 5.9 –5.11).	73
26	5.6	Rainfall (mm) during the flood period in the year, 2003. (Ref. Tables 5.12–5.14).	77
27	5.7	Rainfall (mm) during the flood period in the year, 2004, (Ref. Tables 5.15–5.17).	80
28	5.8	Rainfall (mm) during the flood period in the year, 2005. (Ref. Tables 5.18–5.20).	84
29	5.9	Rainfall (mm) during the flood period in the year, 2006. (Ref. Tables 5.21–5.23).	88
30	5.10	Rainfall (mm) during the flood period in the year, 2007. (Ref. Tables 5.24–5.26).	92
31	5.11	Major Relief features of Koch Bihar District.	94
32	5.12	Drainage congestion in Tufanganj subdivision.	96
33	6.1	Flood frequency curve of Mansai River, at Mathabhanga during	106

		1999-2008 (Ref. Table 6.1).	
34	6.2	Flood frequency curve of Raidak I River, at Chepan during 1999-2008 (Ref. Table 6.2).	107
35	6.3	Flood frequency curve of Raidak II River, at Barobisha during 1999-2008 (Ref. Table 6.3).	109
36	6.4	Flood frequency curve of Torsa River, at Ghugumari during 1999-2008 (Ref. Table 6.4).	110
37	6.5	Flood frequency curve of Tista River at Domohoni during 1999-2008. (Ref. Table 6.5).	111
38	6.6	Flood frequency curve of Sankosh river at Golokganj during 1999-2008. (Ref. Table 6.6).	112
39	6.7	Map showing areas of flood vulnerability in Koch Bihar District.	113
40	6.8	Frequency of flood, (Ref. Table 6.7).	114
41	6.9	Danger Levels (m) of different river of Koch Bihar, (Ref. Table 6.9).	117
42	6.10	Block-wise flood affected population (Ref. Table 6.10).	118
43	6.11	Block-wise Flood affected Area in hectare (Ref. Table 6.10).	118
44	6.12	Area affected by flood during 2000–2008, (Ref. Table 6.11).	120
45	6.13	Discharge (cumec) and water level (m) of River Torsa at Ghugumari in 1999, (Ref. Table Appendix V).	122
46	6.14	Various types of water levels during 2000 of different rivers.	126
47	6.15	Water level (m) in 2000 of various rivers in Koch Bihar District. (Ref Table 6.19).	130
48	6.16	Discharge (cumec) of different rivers during flood period (01/06/2000 to 30/09/2000). (Ref Table Appendix VI).	131
49	6.17	Discharge (cumec) of different rivers during flood period (01/06/2001 to 31/10/2001), (Ref Table Appendix VII).	133
50	6.18	Discharge (cumec) of different rivers during flood period (01/06/2002 to 31/07/2002). (Ref Table Appendix VIII).	135
51	6.19	Discharge (cumec) of different rivers during flood period (01/06/2003 to 31/08/2003). (Ref Table Appendix IX).	137
52	6.20	Discharge (cumec) of different rivers during flood period (01/06/2004 to 30/09/2004). (Ref Table Appendix X).	140
53	6.21	Discharge (cumec) of different rivers during flood period (01/06/2005	142

		to 31/08/2005). (Ref Table Appendix XI).	
54	6.22	Discharge (cumec) of different rivers during flood period 01/06/2006 to 30/09/2006). (Ref Table Appendix XII).	144
55	6.23	Discharge (cumec) of different rivers during flood period (01/06/2007 to 30/09/2007). (Ref Table Appendix XIII).	147
56	6.24	Rating Curve showing the maximum discharge (m <sup>3</sup> /sec) and Water level (m) of main rivers of the District, (Ref. Table 6.42).	148
57	7.1	Year-wise loss of human lives in the District Koch Bihar. (Ref. Table 7.1).	152
58	7.2	Year wise loss of cattle in Koch Bihar District. (Ref. Table 7.2).	153
59	7.3	Year wise crops area damages in sq. km.(Ref. Table 7.3):	154
60	7.4	Year wise damages of houses by flood in Koch Bihar District (Ref. Table 7.3).	155
61	7.5	Male and Female Population (Ref. Table Table 7.5).	163
62	7.6	Male-Female literates and Illiterates (Ref. Table 7.6).	164
63	7.7	Level of Education (Ref. Table Table 7.7).	165
64	7.8	Occupational structure of the surveyed Household (Ref. Table 7.8).	166
65	7.9	Caste of Population (Ref. Table Table 7.9).	167
66	7.10	Religion wise population (Ref. Table 7.10).	168
67	7.11	Shelter during flood (Ref. Table Table 7.11).	169
68	7.12	Families lost Agricultural lands due to bank erosion (Ref. Table 7.13).	170
69	7.13	No. of death in flood (Ref. Table 7.14).	171
70	7.14	Migration outside the villages for job (Ref. Table 7.17).	173
71	7.15	Income level of the household (Ref. Table 7.18).	174
72	8.1	Disaster Management Cycle.	178
73	8.2	A schematic presentation of the main activities in flood forecasting, warning and dissemination.	185
