1.	GENERAL INTRODUCTION	1 – 8
1.1	Three 'T's of North Bengal	1
1.2	Richness of Biodiversity	1
1.3	Darjiling is a part of Himalayan Hotspot	2
1.4	Early History of the Land	5
1.5	Initiation of Modification	6
1.6	Location and Boundary	8
1.7	Topography and General Features	9
1.7.1	Topography	9
1.7.2	Rivers and Drainage	9
1.8	Geology and Soil	11
1.8.1	Geology	11
1.8.2	Geological Formations in Darjiling	12
1.8.3	Soil	13
1.9	Climate	14
1.9.1	Seasons of the Year	14
1.9.2	Rainfall / Precipitation	15
1.9.3	Temperature	19
1.9.4	Relative Humidity	21
1.10	General Vegetation Type	23
1.11	Floristic Works in Darjiling Hills	31
1.12	Present Status of Vegetation	32
1.12.1	Introduction of Three Trees	33
1.12.2	Migration of Work Force	33
1.12.3	Rapid Extension of Civilization	33
1.12.4	Fragmentation of Vegetation	33
1.12.5	Loss of Habitat	34
1.12.6	Loss of Biodiversity	34
1.12.7	Attempts for Conservation	34
2.	TEA IN INDIA AND WORLD	36-46
2.1	Early History of Tea	36
2.2	Cultivation of Tea	37

2.3	History of Indian Tea	42
2.4	Tea in Darjiling	45
3.	WEEDS OF CULTIVATION	47-50
3.1	What is a Weed?	47
3.2	Sources of Weeds	48
3.3	Concern for Weeds	48
3.4.	Need for Surveying Weed Flora	49
3.5	Usefulness of Weeds	50
4.	THE STUDY AREA	51-55
4.1	Introduction	51
4.2	Selection of Area	52
4.3	Gardens from Terai	53
4.4	Gardens from Hills	54
4.5	Climate of Study Area	54
5.	MATERIALS AND METHODS	56-70
5.1	Selection of Gardens	56
5.2	The Floristic Survey	56
5.2.1	Collection and Preservation of Materials	57
5.2.2	Field Note Book	57
5.2.3	Identification	57
5.2.4	Enumeration and Description	58
5.3	Vegetation Analysis	58
5.3.1	Methods of Vegetation Sampling	59
5.3.2	Collection and Preservation of Materials	59
5.3.3	Identification	59
5.3.4	Data Analysis	59
5.3.5	Diversity Indices	60
5.3.5.1	Species Diversity [Shannon-Weiner Index]	60
5.3.5.2	Species Richness [Menhinick Index]	61
5.3.5.3	Similarity Index	61
5.4	Weed Phenology	62
5.5	Reproductive Potential	63
5.5.1	Seed Characters	63
5.5.2	Seed Viability Percentage	63
5.5.3	Seed Germination	64
5.5.4	Reproductive Capacity and Seed Output	64
5.5.5	Data Analysis	64
5.6	Effects of Herbicides	65
5.7	Allelopathic Effects	66
5.7.1	Preparation of Extract and Leachete Solutions	66
5.7.2	Germination Tests	66
5.7.3	Data Analysis	67
5.8	Uses of Weeds	68
5.8.1	Useful and Poisonous Weeds	69
5.8.2	Ethnobotany of Tea Garden Workers	69
6.	FLORISTIC STUDIES	71-355

6.1	<i>Introduction</i>	
6.2	<i>Selected Gardens</i>	71
6.3	<i>Methods of Survey</i>	72
6.4	<i>Enumeration of the Flora</i>	72
6.5	<i>Abbreviations Used</i>	73
6.6	<i>Systematic position of the recorded Flora</i>	74
6.7	<i>The Enumeration of the Flora</i>	81
	<i>Pteridophytes</i>	81
	<i>Gymnosperms [Pinophyta]</i>	108
	<i>Angiosperms [Magnoliophyta]</i>	110
	<i>Dicotyledons [Magnoliopsida]</i>	110
	<i>Monocotyledons [Liliopsida]</i>	310
7.	VEGETATION ANALYSIS	356-459
7.1	<i>Introduction</i>	356
7.2	<i>The Floristic Diversity</i>	357
7.3	<i>Analysis of Phytosociological Data Collected from Tea Gardens in Darjiling Terai</i>	358
7.3.1	<i>Mohurgong & Gulma Tea Estate</i>	358
7.3.2	<i>Hansqua Tea Estate</i>	366
7.3.3	<i>Kamalpur Tea Estate</i>	375
7.3.4	<i>Matigara Tea Estate</i>	384
7.3.5	<i>Overall Weed Picture of Terai Tea Gardens</i>	393
7.3.5.1	<i>Diversity Indices</i>	399
7.4	<i>Analysis of Phytosociological Data Collected from Tea Gardens in Darjiling Hills</i>	400
7.4.1	<i>Makaibari Tea Estate</i>	401
7.4.2	<i>Soom Tea Estate</i>	412
7.4.3	<i>Tamsong Tea Estate</i>	424
7.4.4	<i>Overall Weed Picture of Hill Tea Gardens</i>	434
7.4.4.1	<i>Diversity Indices</i>	440
7.5	<i>Holistic Phytosociological Picture of Weeds of Tea in Terai and Hills of Darjiling</i>	442
7.5.1	<i>Similarity Index</i>	457
7.5.2	<i>Species Diversity</i>	457
7.5.3	<i>Species Richness</i>	457
7.6	<i>Conclusion</i>	458
8.	WEED PHENOLOGY	460-478
8.1	<i>Introduction</i>	460
8.2	<i>Results and Discussion</i>	462
8.2.1	<i>Habit Groups</i>	469
8.2.2	<i>Life Forms</i>	470
8.2.3	<i>Phenology of the Tea Garden Weeds</i>	472
8.2.3.1	<i>Seedling Appearance/ Awakening after Rest</i>	472
8.2.3.2	<i>Vegetative Growth</i>	473
8.2.3.3	<i>Flowering Calendar</i>	474
8.2.3.3.A	<i>Pollination Types</i>	475
8.2.3.4	<i>Fruit Ripening and Seed Dispersal</i>	476
8.2.3.5	<i>Death or Rest</i>	477

8.3	Conclusion	478
9.	REPRODUCTIVE POTENTIAL	479-511
9.1	Introduction	479
9.1.1	What is a Seed?	480
9.2	Previous Works	481
9.3	The Present Work	483
9.4	Results and Discussion	483
9.4.1	Species-wise Observation	487
9.4.2	Estimation of Seeds per Fruit	504
9.4.3	Seeds per Plant	504
9.4.4	Seed Weight	505
9.4.5	Germination Percentage	506
9.4.6	Reproductive Capacity (RC)	507
9.4.7	Reproductive Potential of Successful Families	508
10.	EFFECTS OF HERBICIDES	512-538
10.1	Introduction	512
10.2	Aims and Objectives	512
10.3	Methods Adopted	513
10.4	Herbicides Used	513
10.5	Sprayers Used	515
10.6	Statistical Analysis	515
10.7	Weather Data	515
10.8	Results	516
10.9	Discussion	536
11.	ALLELOPATHIC EFFECTS OF WEEDS ON TEA SEED GERMINATION	539-573
11.1	What is Allelopathy?	539
11.2	History	540
11.3	Are all plants Allelopathic?	543
11.4	How Does Allelopathy Work?	544
11.5	Nature's Impact	544
11.6	Results and Discussion: Effects of Leachates	547
11.6.1	Effects of Leachates of <i>Ageratum conyzoides</i> L. on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	548
11.6.2	Effects of Leachates of <i>Borreria alata</i> (Aublet) Schumann on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	550
11.6.3	Effects of Leachates of <i>Drymaria villosa</i> Chamisso et Schlechtendal on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	552
11.6.4	Effects of Leachates of <i>Galinsoga parviflora</i> Cavanilles on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	554
11.6.5	Effects of Leachates of <i>Mikania micrantha</i> Kunth on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	556

11.6.6	Effects of Leachates of <i>Persicaria runcinata</i> (D. Don) H. Gross on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	558
11.7	Results and Discussions: Effects of Extracts	560
11.7.1	Effect of extracts of <i>Ageratum conyzoides</i> L. on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	560
11.7.2	Effect of extracts of <i>Borreria latifolia</i> (Aublet) Schumann on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	562
11.7.3	Effect of extracts of <i>Drymaria villosa</i> Chamisso et Schlechtendal on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	563
11.7.4	Effect of extracts of <i>Galinsoga parviflora</i> Cavanilles on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	565
11.7.5	Effect of extracts of <i>Mikania micrantha</i> Kunth on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	567
11.7.6	Effect of extracts of <i>Persicaria runcinata</i> (D. Don) H. Gross on Seed Germination and Seedling Growth of <i>Camellia sinensis</i> (L.) O. Kuntze	569
11.8	Conclusion	571
12.	USEFUL AND POISONOUS TEA WEEDS	574-584
12.1	Useful Plants	574
12.2	Poisonous Plants	580
12.3	Discussion	584
13.	ETHNOBOTANY OF TEA GARDEN WORKERS	585-668
13.1	Introduction	585
13.2	Definitions	587
13.3	History of Ethnobotanical Studies	588
13.3	Ethnobotanical Studies in India	592
13.4	Importance of Studying Ethnobotany	594
13.5	Sacred Groves	594
13.6	Drugs from Ethnic Formulations	594
13.7	The Present Work	597
13.8	Wild Edible Plants	598
13.9	<i>Jhârâ</i> Preparation by Oraon Community	605
13.10	Fodder Plants	610
13.11	Medicinal & Aromatic Plants	613
13.12	Dye Yielding Plants	641
13.13	Religious Plants (including Super Natural Forces)	642
13.14	Ornamental and Decorative Plants used by Tea Garden workers in Terai and hills of Darjiling	645
13.15	Fibre Yielding Plants	648
13.16	Plants of Miscellaneous Uses	650
13.17	Discussion	654

14.	GENERAL DISCUSSION	669-677
14.1	Aspects of the Present Dissertation	669
14.2	Effects of Tea Gardens on the Floristic Diversity of the Region	670
14.3	Endemic Plants	672
14.4	Plants actually growing inside Tea Gardens	672
14.5	Important Weeds and their Uses	673
14.6	Dependence of Tea Garden Workers on Local Vegetation	674
14.7	Weed Control in Tea Gardens	674
14.8	Natural Perpetuation of Weedy Plants	675
14.9	Important Weeds of Tea in Terai and Hills of Darjiling	675
14.10	Similarities and Differences in Flora	676
14.11	Tea Gardens and Biodiversity Conservation	677
15.	CONCLUSION	678-679
16.	REFERENCES	680-696
