

A C K N O W L E D G E M E N T

The author is deeply indebted to Dr. C. P. Sinha, Department of Chemistry, A. C. College, Jalpaiguri for his guidance in developing the present thesis. He also expresses his deep sense of gratitude to Dr. R.P. Singh, Professor and Head of the Department of Chemistry, Bhagalpur College of Engineering, Bhagalpur for his keen interest in the subject and very valuable suggestions for improving the presentation of the thesis.

The author is extremely grateful to Dr. M. Das, Principal, Jalpaiguri Govt. Engineering College, Jalpaiguri for making available all the required laboratory facilities of the College during the course of his research work. He is also grateful to Dr. T.K. Chaudhury, Principal, A.C.College, Jalpaiguri for his encouragement and support.

The author wishes to thank Prof. T. K. Ray, Professor & Head of the Department of Mechanical Engineering, Jalpaiguri Govt. Engineering College, Jalpaiguri for his help and encouragement. He also thankfully acknowledges the help rendered to him by Mr. Pranab Ghosh, M.Sc. Thanks are also due to Mr. D. Nandi for his unbounded enthusiasm in typing the manuscript.

The author is also greatly indebted to UGC, Govt. of India for providing, financial assistance under 'Minor Research Project'.

The author can never forget the hospitality extended to him by Mrs. C. P. Sinha at the residence of his supervisor.

Finally, the author must recognise the patience and understanding of his wife and children.
