

#### ACKNOWLEDGEMENT.

In preparing the thesis the author has received active co-operation and kind encouragement from many persons associated with the academic activities in the University of North Bengal.

After publication of a part of the results included in the thesis, there was communication with some Scientists in this field of research. The author has received from them many publications which were not available locally. Particularly, publications by Drs. D. T. Cromer, J. B. Mann, J. T. Waber and the compilation by Drs. W. J. Veigale, E. Briggs, L. Bates, E. M. Henry and B. Bracewell were valuable in the present work. The author takes this opportunity of offering her thanks to them and others who rendered help by providing valuable information.

The author expresses her gratefulness to Prof. S. N. Sen, M.Sc., D.Phil., F.Inst.P. (London), Senior Professor & Head of the Department of Physics, University of North Bengal for his sympathetic interest and active co-operation during her work.

To Dr. N. Chaudhuri, Reader in Physics, University of North Bengal who was the guide, the author accepts her sincere debt for years of untiring supervision and leadership in bringing the work to completion.

The author thanks the University of North Bengal for providing the Fellowship and financial and material help for the work. The

members and staff of the University Library and Press deserve sincere thanks for their help.

Smt. Uma Das, M.A., Lecturer, P.D.Women's College, Jalpaiguri has been a source of constant encouragement during the entire period of work.

The author further remembers untiring co-operation from Nitya Lal Karmakar, M.Sc. and Swapan Kumar Ghosal, M.Sc., her co-researchers, Pasang Tamang, Kamal Kumar Chettri, other members of the technical staff in the department of Physics and S.Chowdhary, Typist, University of North Bengal.
