

TABLE OF CONTENTS

	Page
Title page	...i
Certificate	...ii
Acknowledgement	...iii
Table of Contents	...iv
Preface	...v
Abstract	...xiii
Nomenclature	...xv
Chapter -I: A NOVEL COMPUTERIZED APPROACH FOR THE LARGE DEFLECTION OF THIN ELLIPTICAL PLATES UNDER MECHANICAL LOADING	
1.1 Abstract2
1.2 Introduction2
1.3 Basic Equation3
1.4 Formulation Of the problem under investigation4
1.5 Computerised Analysis5
1.6 Numerical Results and Conclusion	...16
Chapter -II: FINITE DIFFERENCE METHOD	
2.1 Abstract	...20
2.2 Introduction	...20
2.3 Theory	...22
2.3.1 Representation of derivative by Finite Difference	...23
2.3.2 Errors in Finite Difference Equations	...24
2.3.3 Representation of partial derivatives by Finite Difference	...26
2.3.4 Finite Difference Equation at Interior node of a plate in bending	...30
Chapter- III: REPRESENTATION OF PLATE EQUATION	
3.1 The Difference Expression of Differential Equation and Boundary Conditions for Composite Plates :	...32
3.2 The Patterns of Finite Difference Coefficient	...36

Chapter – IV : PROBLEMS UNDER INVESTIGATION

4.1	Four edges simply supported square plates	...43
4.2	Non Linear Analysis of Square Plates simply supported at four Corners	...46
4.2.1	Numerical Results.	...49
4.2.2	Conclusions	...50
4.3	Large Deflection of Thick equilateral triangular plate	...52
4.3.1	Numerical Results	...54
4.3.2	Observation and Conclusion	...57

Chapter-v NON-LINEAR ANALYSIS OF HEATED POLYGONAL SANDWICH PLATES.

5.1	Abstract	...59
5.2	Introduction	...59
5.3	Governing Equation	...60
5.4	Flow chart	...64
5.5	Numerical Calculations	...64
5.6	Observations and Conclusions	...67

Chapter-VI LARGE AMPLITUDE FREE VIBRATIONS OF THICK POLYGONAL PLATES

6.1	Abstract	...70
6.2	Introduction	...70
6.3	Analysis	...71
6.4	Numerical Results	...75
6.5	Observation and conclusion	...78

Chapter VII

CONCLUSION AND FUTURE SCOPE OF WORK	...80
