ORGANOPHOSPHORUS PESTICIDES:-

<u>Part 1</u>	<u>Page</u>
1. Introduction :	1
2. Organophosphorus fungicides :	1
3. Reaction with cholinesterase :	10
4. Chemical hydrolysis :	13
5. Discovery of salithion :	15
6. Properties of salithion :	18
7. Biological activities and structural relationship :	24
7. (a) Insecticidal activity :	28
(b) Fungicidal activity :	29
(c) Anti-SH enzyme activity :	30
(d) Anti-esterase activity :	32
(e) Synergistic activity :	33
(f) Tables :	34
8. Aims and objects of the present investigation :	44
9. References :	48

(Studies on some substituted saligenin cyclic phosphorus compounds having pesticidal activity)

A. MATERIALS AND METHODS

1.	Purification of solvents and other chemicals	:	53
2.	Spectroscopic methods	:	53
3.	Preparation of Thiophosphoryl chloride	:	54
4.	Preparation of 5-chloro/bromo/nitro-saligenin (2-hydroxy-5-chloro/bromo/nitro-benzyl alcohol)	:	54
4.	(a) (i) Preparation of 2-hydroxy-5-chlorobenzyldehyde	:	54
	(ii) Reduction of 2-hydroxy-5-chlorobenzyldehyde	:	55
4.	(b) (i) Bromination of salicylaldehyde to 2-hydroxy-5-benzyldehyde	:	57
	(ii) Reduction of 2-hydroxy-5-bromobenzyldehyde	:	58
5.	Preparation of 2-hydroxy-5-nitrobenzyl alcohol	:	59
5.	(i) Preparation of 2-hydroxy-5-nitrobenzyl alcohol	:	59

	Page
5. (ii) Hydrolysis of 2-hydroxy-5-nitrobenzyl chloride :	61
6. Preparation of Alkylamidophosphorodichloridothionates :	62
6. (a) (i) N-N-Diisobutylamidophosphorodichloridothionate :	63
(ii) 2,6-Dimethylmorpholino-phosphorodichloridothionate:	63
(iii) Hexamethylenaminophosphorodichloridothionate :	64
6. (b) Preparation of some 2-alkylamido-6-chloro/bromo/nitro-4H-1,3,2-benzodioxaphosphorin 2-sulphides :	64
(b) (i) 2-N-N-Diisobutylamido-6-chloro-4H-1,3,2-benzodioxaphosphorin 2-sulphide (CL-6) :	66
(ii) 2-N-N-Diisobutylamido-6-bromo-4H-1,3,2-benzodioxaphosphorin 2-sulphide(BR-6) :	67
(iii) 2-N-N-Diisobutylamido-6-nitro-4H-1,3,2-benzodioxaphosphorin 2-sulphide(BD-25) :	68
(iv) 2(2,6-Dimethylmorpholino)-6-chloro-4H-1,3,2-benzodioxaphosphorin 2-sulphide(CL-12) :	69

	Page
6. (b) (v) 2(2,6-Dimethylmorpholino)-6-bromo-4H-1,3,2-benzodioxaphosphorin 2-sulphide (BR-12)	: 69
(vi) 2(2,6-Dimethylmorpholino)-6-nitro-4H-1,3,2-benzodioxaphosphorin 2-sulphide (BD-31)	: 70
(vii) 2-Hexamethyleneimino-6-chloro-4H-1,3,2-benzodioxaphosphorin 2-sulphide (CL-17)	: 71
(viii) 2-Hexamethyleneimino-6-bromo-4H-1,3,2-benzodioxaphosphorin 2-sulphide (BR-17)	: 72
(ix) 2-Hexamethyleneimino-6-nitro-4H-1,3 2-benzodioxaphosphorin 2-sulphide (BD-34)	: 73
7. Fungicidal activity	: 74
8. Oral toxicity tests on rats	: 75
9. Insecticidal activity on cockroaches	: 75
10. Phytotoxicity tests	: 76
11. Anticholinesterase activity in goat whole blood plasma, and blow fly head homogenate	: 77
12. Chemical hydrolysis	: 80
13. Studies on fungicidal activity using spore germination method	: 80
14. Further studies on fungicidal activity on other fungi using growth inhibition method	: 82

	Page
15. Studies (in vivo) of Fungicidal activity of some compounds against <u>H. oryzae</u> on rice leaf	82
16. Determination of protectant activity on detached rice leaves	83
17. Further studies on phytotoxicity of some of the compounds	83
17. (a) Effects of treatment on rice seeds	83
(b) Effects of treatment on plants	84

B. RESULTS AND DISCUSSION

1. Synthesis	85
2. Structure determination by spectroscopic method	88
(a) Spectral data	88
(b) Discussion on spectral data	94
3. Discussion on fungicidal activity	98
4. Discussion on insecticidal activity	101
5. Discussion on oral toxicity on rats	102
6. Discussion on Phytotoxicity	104

	Page
7. Discussion on anticholinesterase activity	: 105
8. Discussion on chemical hydrolysis	: 107
9. Discussion on fungicidal activity on other fungi (growth inhibition)	: 111
10. Discussion on Fungicidal activity	: 120
11. Discussion on protectant activity against <u>H. oryzae</u> on detached rice leaves	: 128
12. Discussion on phytotoxic properties	: 130
13. Q S A R Study	: 135
14. Summary and Conclusion	: 138
15. Toxic effect of some pesticides on <u>Spirogyra</u> sp., thin degradation period and residue study by chlorophyll assay method	: 144
References	: 150
Appendix (Experiments)	: 154
