

Acknowledgements

I would like to thank all those who have encouraged me to complete this thesis. I express my deep sense of gratitude towards my reverent supervisor Prof. J.K. Mandal, Computer science and Engineering, Kalyani University for his valuable guidance of this thesis, without which it was not possible for me to complete. I have been encouraged and got his advice in many situations in developing the work as a whole. My pen will be unable to state his all out effort, co-operation and inspiration. Secondly Mrs. Shyamali Mandal, the wife of Prof. J.K. Mandal, deserves really the gratitude for her constant co-operation and encouragement during the work.

I must express my gratitude to Mr. S. Bhalla, the manager of Phuguri Tea Estate, Mirik and all other employees of that garden, who provide me necessary information and related data of the garden.

Mr. Goutam Chakraborty, manager, Matigara Tea Estate and Mr. Doglas, manager, Gayaganga Tea Estate also deserve the gratitude for providing information regarding tea plantation.

Mrs. Sumita, my wife has cooperated in all respect with her encouragement and sacrifice in order to complete the work. Sincere and heartiest thank and gratitude is extended to her. I am very grateful to my mother, my father-in-law, my elder brother and all my family members who constantly encourage me for the Ph. D. work.

I should express my thanks and gratitude to my colleague, Mr. Sharad Sinha and my students Sri Atanu Moitra, Sri Puspendu Sarkar, Miss Arpita Nath, Sri Abir Dutta and Sri Muktipada De for their cooperation as and when asked.

Finally I must thank to the Head and all other staff members of the Department of Computer Science and Application, NBU, who directly or indirectly help me to do the research work.

Swarup Das
