	<u>P a g e</u>
PREFACE	
CHAPTER 1 : In vitro seed germination and growth in <u>Cymbidium</u> hybrids and <u>Aerides multiflorum</u> Roxb.	
1.1 Introduction	1 - 5
1.2 Materials & Methods	6 - 20
1.3 Observations	
1.3.1 In vitro seed germination in different media	21 - 36
1.3.2 Induction of callus from germinated seeds	37 - 50
1.4 Discussion	51 - 56
1.5 Summary	57 - 60
1.6 References	61 - 69
CHAPTER 2 : Growth pattern of callus tissues in <u>Cymbidium</u> hybrids and <u>Aerides multiflorum</u> Roxb.	
2.1 Introduction	70 - 72
2.2 Materials & Methods	73 - 77
2.3 Observations	
2.3.1 Growth pattern in different culture media	78 - 86
2.3.2 Growth pattern in newly defined nutrient medium	87 - 91
2.4 Discussion	92 - 95
2.5 Summary	96
2.6 References	97 - 98

CHAPTER 3	: Effect of Hormones, Vitamins and Amino acids on the growth of callus derived from <u>Cymbidium</u> hybrids and <u>Aerides multiflorum</u> Roxb.	
3.1	Introduction	99 - 101
3.2	Materials and Methods	102 - 105
3.3	Observations	
3.3.1	Effect of hormones, vitamins and amino acids on callus growth	106 - 120
3.3.2	Effect of auxin and cytokinin on callus growth	121 - 134
3.4	Discussion	135 - 138
3.5	Summary	139 - 141
3.6	References	142 - 144
CHAPTER 4	: Cytology of <u>Cymbidium</u> hybrid and <u>Aerides multiflorum</u> Roxb. under in vivo condition	
4.1	Introduction	145 - 148
4.2	Materials and Methods	149 - 150
4.3	Observations	151 -
4.3.1	Karyotype studies of <u>Cymbidium</u> 'Christmas Beauty'	154 - 157
4.3.2	Karyotype studies of <u>Aerides multiflorum</u> Roxb.	158 - 160
4.4	Discussion	161 - 164
4.5	Summary	165
4.6	References	166 - 169

CHAPTER 5 :	Cytology and developmental morphology of <u>Cymbidium</u> hybrids and <u>Aerides multiflorum</u> Roxb. under in vitro conditions	
5.1	Introduction	170 - 173
5.2	Materials and Methods	174 - 176
5.3	Observations	
5.3.1	Cytology of roots differentiated in vitro	177 - 179
5.3.1.1	Karyotype studies of material A	180 - 182
5.3.1.2	Karyotype studies of material B	183 - 186
5.3.1.3	Karyotype studies of material C	187 - 189
5.3.2	Stomatal frequency under in vivo and in vitro conditions	191 - 200
5.3.3	Histological changes during germination	201 - 207
5.3.4	Cell morphological changes during organogenesis	208 - 212
5.3.5	Anatomical changes during callus differentiation	213 - 214
5.4	Discussion	215 - 218
5.5	Summary	219 - 220
5.6	References	221 - 225

CHAPTER 6	:	In vitro seed germination and growth in <u>Dendrobium pieradii</u> Roxb. and <u>Vanda teres</u> Lindl.	
6.1		Introduction	226 - 228
6.2		Materials and Methods	230 - 232
6.3		Observations	
6.3.1		In vitro seed germination of immature seeds in different media	233 - 245
6.3.2		Induction of callus from germinated seeds	246 - 249
6.4		Discussion	250 - 253
6.5		Summary	254 - 256
6.6		References	257 - 261
