### ***LIST OF FIGURES***

## **CHAPTER – 1 INTRODUCTION: 1-12**

### 1.1 Introduction

### 1.2 Purchasing Power Parity: Meaning, Importance in International Trade

#### 1.2.1 Purchasing Power Parity: Meaning

#### 1.2.2 Absolute PPP: Single Good Case

#### 1.2.3 Absolute PPP: Multiple Good Case

#### 1.2.4 Relative Purchasing Power Parity (RPPP):

#### 1.2.5 Relative Exchange Rate:

#### 1.2.6 Importance of PPP in Economic Theory

#### 1.2.7 Importance of PPP in the Expansion of International Trade:

### 1.3 Importance of PPP in Trade Among South Asian Countries

### 1.4 Importance of PPP in Indo-Nepalese Trade:

### 1.5 Exchange Rate Management in India Since 1971

### 1.6 Evolution of Exchange Rate System In Nepal – A Brief History

### 1.7 Objective of the Study

### 1.8 Chapter Specification

## **CHAPTER - 2 REVIEW OF LITERATURE 13-23**

### 2.1 Introduction

### 2.2 Review of Theoretical Developments:

### 2.3 Review of Empirical Contributions

**CHAPTER - 3 DATA & METHODOLOGY**

24-56

- 3.1 Nature and Period of Dataset
- 3.2 Source of the Dataset
- 3.3 Rationale Behind the Choice of the Period of Study
  - 3.3.1 Rationale Behind the Choice of the Consumer Price Index (CPI) Price Indices in case of Multiple Goods:
    - 3.3.1 Price Indices Rationale Behind the Use of Tradable Goods only:
    - 3.3.2 Arguments Behind the Use of CPI
- 3.4 Use of CPI in this Study
- 3.5 Tests for PPP
  - 3.5.1 Testability of Absolute Purchasing Power Parity (APPP)
  - 3.5.2 Testability of Relative Purchasing Power Parity(RPPP)
- 3.6 Basic Format for the Test of RPPP
- 3.7 Stationarity:
  - 3.7.1 Properties of Stationarity Dataset and Unit Root Test
  - 3.7.2 Unit Root Tests: The Methodology
  - 3.7.3 Augmented Dickey Fuller Unit Root Test
  - 3.7.4 The D-F GLS Unit Root Test
  - 3.7.5 Phillips –Perron Unit Root Test
- 3.8 Cointegration:
  - 3.8.1 Cointegration: Engel Granger Method
  - 3.8.2 Johansen Cointegration Test:
- 3.9 Correlogram:
- 3.10 Vector Error Correction Modeling:
- 3.11 Vector Autoregressive Model
  - 3.11.1 Stability of the VAR Model
- 3.12 Granger Causality: Methodology
  - 3.12.1 Introduction
  - 3.12.2 The Methodology

- 3.13 Intervention Analysis: Impulse Response Functions
- 3.14 Intervention Analysis: Variance Decomposition of Forecast Errors:
- 3.15 'Window Finding' of Structural Changes:
  - 3.15.1 Methodology

## **CHAPTER - 4 STATIONARITY AND INTEGRABILITY OF TIME SERIES**

**$E_t$  AND  $P_t$**

57-73

- 4.1 Introduction:
- 4.2 Time plots of the series
- 4.3 Trend Analysis:
  - 4.3.1 Nature of the Time Plot of Rupee/Nepalese Rupee Exchange Rate( $e_t$ )
  - 4.3.2 Nature of the Time Plot of the Relative Price Level ( $P_t$ )
- 4.4 Test of Stationarity: Augmented Dickey-Fuller (ADF) Unit Root Test
- 4.5 Results of the ADF Tests
- 4.6 Finding From the ADF Tests (Table 4.1)
- 4.7 Results of Phillips-Perron Unit Root Tests
- 4.8 Finding From the Phillips-Perron Test (Table 4.2)
- 4.9 Integrability of  $e_t$  and  $p_t$  Series: Time Plots of First Differenced Series:
- 4.10 Integrability of  $e_t$  and  $p_t$  Series: ADF and PP Tests
- 4.11 Test of Stationary Through Correlogram Study
- 4.12 Findings From the Figures 4.5 and 4.6
- 4.13 Findings from the Figures 4.7 and 4.8
- 4.14 Review of the Findings:

## **CHAPTER - 5 STUDY OF COINTEGRATION BETWEEN RUPEE/ NEPALESE RUPEE EXCHANGE RATE AND RELATIVE PRICE LEVEL**

74-92

- 5.1 Introduction:
- 5.2 Johansen Cointegration Test
- 5.3 Findings From the Table 5.1

- 5.4 Overview of the Findings of Cointegration Study and Economic Implications
- 5.5 Limitations of Study With the Historical Dataset (Covering the period 1976:1 – 2006:1)
- 5.6 Stationarity of  $e_t$  and  $p_t$  in the Sub-period 1976:1-1993:1: ADF Unit Root Test
- 5.7 Findings From The Tables 5.2-5.3
- 5.8 Stationarity of  $e_t$  and  $p_t$  in the Sub-period 1976:1-1993:1 : Correlogram Study
- 5.9 Findings From the Correlogram Study (Sub-period: 1976:1- 1993:1)
- 5.10 Review of the Findings on Stationarity of  $e_t$  and  $p_t$  Over the Sub-period 1976:1-1993:1
- 5.11 Stationarity of  $e_t$  and  $p_t$  in the Sub-period 1993:2-2006:1: ADF Unit Root Tests
- 5.12 Findings From the Table 5.4-5.5
- 5.13 Stationarity of  $e_t$  and  $p_t$  in the Sub-period 1993:2-2006:1: Correlogram Study
- 5.14 Findings From the Correlogram Study (Sub-Period: 1993:2- 2006:1)
- 5.15 Review of Findings on Stationarity and Integrability of  $e_t$  and  $p_t$  over the Sub-Period 1993:2-2006:1
- 5.16 Summary of the Findings and Economic Implications

**CHAPTER – 6 STUDY OF COINTEGRATION BETWEEN RUPEE/  
NEPALESE RUPEE EXCHANGE RATE AND RELATIVE  
PRICE LEVEL IN DIFFERENT SUB- PERIODS**

93-98

- 6.1 Introduction:
- 6.2 The Johansen Cointegration Tests For the Sub-Periods 1976:1-1993:1
- 6.3 Finding From The Table 6.1
- 6.4 Overview of the Findings From the Johansen Cointegration Tests

- 6.5 Economic Implications of Findings of Cointegration Study
- 6.6 The Johansen Cointegration Tests for The Sub-Period 1993:2-2006:1
- 6.7 Findings From The Table 6.2
- 6.8 Overview of the Findings From the Johansen Cointegration Test  
(for the Sub-period 1993:2 – 2006:1)
- 6.9 Economic Implications of the Findings of Cointegration Study
- 6.10 Summary of Findings in Chapter-6

**CHAPTER – 7 DYNAMICS OF SHORT- RUN SHOCKS AND STABILITY  
OF THE LONG-RUN RELATIONSHIP BETWEEN  
EXCHANGE RATE AND RELATIVE PRICE LEVEL**

99-108

- 7.1 Introduction:
- 7.2 The Vector Error Correction Model (VECM)
- 7.3 Results of the Estimated VEC Model (Sub-Period 1993:2 – 2006:1)
- 7.4 Stability of the VEC Model
  - 7.4.1 Findings From the Table 7.3
- 7.5 Findings From the VECM Estimation (Table 7.1)
- 7.6 Findings From the VECM Estimation (Table 7.2)
- 7.7 Economic Interpretations of Results of the estimated VEC Model
- 7.8 Overview of Findings From the Estimated VEC Model

**CHAPTER – 8 CAUSAL RELATIONSHIP BETWEEN RUPEE/NEPALESE  
RUPEE EXCHANGE RATE AND RELATIVE PRICE LEVEL - A  
STUDY WITH VECTOR AUTOREGRESSIVE MODEL**

109-125

- 8.1 Introduction:
- 8.2 The Vector Autoregressive (VAR) Model
- 8.3 Selection of Lag Length in the VAR Estimation
- 8.4 Results of the Estimation of the VAR Model
- 8.5 Essential Features of the VAR Model

- 8.6 Conditions of Stability For the VAR Model
- 8.7 Examination of the Stability of the VAR Model
- 8.8 Normality of the VAR Residuals  $\hat{u}_{1t}$  and  $\hat{u}_{2t}$  : Jarque-Bera Test
- 8.9 Serial Independence of the VAR Residuals ( $\hat{u}_{1t}$  and  $\hat{u}_{2t}$ )
- 8.10 Further Confirmation of Serial Independence: Portmanteau Test
- 8.11 Homoscedasticity of the VAR Residuals ( $\hat{u}_{1t}$  and  $\hat{u}_{2t}$ )
- 8.12 Further Confirmation of Homoscedasticity of VAR Residuals: Correlogram of VAR Residual Variance
- 8.13 Findings From the VAR Model (Table 8.2)
- 8.14 Economic Interpretations of Findings in Section 8.13
- 8.15 Findings From the Estimated VAR model (Table 8.3)
- 8.16 Economic Interpretations of the Findings in Section 8.15
- 8.17 Summary of Findings in Chapter 8

## **CHAPTER – 9 INTERVENTION ANALYSIS THROUGH THE STUDY OF IMPULSE RESPONSE FUNCTIONS**

126-137

- 9.1 Introduction:
- 9.2 Methodological Issues Concerning Impulse Response Functions
  - 9.2.1 Univariate Case:
  - 9.2.2 Multivariate Case:
- 9.3 Impulse Response Functions for Exchange Rate ( $E_t$ )
- 9.4 Explanation of Exchange Rate ( $E_t$ ) Dynamics Through Impulse Response Functions
  - 9.4.1 Observations From the Figure 9.1 and Table 9.1
  - 9.4.2 Observations From the Figure 9.2 and Table 9.1
- 9.5 Economic Interpretations of the Findings in Section 9.4
- 9.6 Impulse Response Functions For Relative Price Level ( $P_t$ )
- 9.7 Explanation of Relative Price Level ( $P_t$ ) Dynamics Through Impulse Response Functions

- 9.7.1 Observations From the Figure 9.3 and Table 9.2
- 9.7.2 Observations From the Figure 9.4 and Table 9.2
- 9.8 Economic Interpretations of Findings in Section 9.7
- 9.9 Overview of the Findings From the Study with Impulse Response Functions

**CHAPTER – 10 INTERVENTION ANALYSIS THROUGH THE STUDY OF VARIANCE DECOMPOSITION** 138-145

- 10.1 Introduction:
- 10.2 Variance Decomposition Tables and Figures For Exchange Rate
- 10.3 Explanation of Exchange Rate Dynamics Through the Study of Variance Decomposition
- 10.4 Economic Interpretations of Findings in Section 10.3
- 10.5 Variance Decompositions Tables and Figures for Relative Price Level
- 10.6 Explanation of Relative Price Dynamics Through the Study of Variance Decomposition
- 10.7 Economic Interpretations of Findings in Section 10.6
- 10.8 Overview of Findings in Chapter 10

**CHAPTER – 11 GRANGER CAUSALITY BETWEEN RUPEE/NEPALESE RUPEE EXCHANGE RATE AND RELATIVE PRICE LEVEL-STUDY WITH RESTRICTED VAR MODEL** 146-152

- 11.1 Introduction:
- 11.2 The Restricted VAR Model
- 11.3 Estimation and Result
- 11.4 Findings From the Table 11.1
- 11.5 Results of Estimation of the Modified Equation (11.3) in the Restricted VAR System
- 11.6 Findings From the Estimated Modified Equation (11.3)

- 11.7 Economic Interpretations of Findings in Section 11.6
- 11.8 Findings From the Table 11.2 [Equation 11.2]
- 11.9 Economic Implications of the Findings in Section 10.8
- 11.10 Overview of the Findings in Chapter 11

**CHAPTER - 12 SPECTRAL ANALYSIS ON THE RELATIONSHIP BETWEEN EXCHANGE RATE ( $E_t$ ) AND RELATIVE PRICE LEVEL ( $P_t$ )**

153-169

- 12.1 Introduction:
- 12.2 Spectral Estimation: Methodology
  - 12.2.1 Fourier Series:
  - 12.2.2 Fourier Transformations:
  - 12.2.3 The Spectral Distribution Function
  - 12.2.4 The Spectral Density Function (SPECTRUM)
  - 12.2.5 The Cross Spectrum
  - 12.2.6 Co-spectrum and Quadrature Spectrum
  - 12.2.7 Cross Amplitude Spectrum and Phase Spectrum
  - 12.2.8 Coherency Spectrum and Gain Spectrum
- 12.3 The 'Cospectral Densities' of  $E_t$  and  $P_t$
- 12.4 Features of the 'Gain Spectrum' of Exchange Rate ( $E_t$ ) and Relative price Level ( $P_t$ )
- 12.5 Study with the 'Coherency Spectrum' of Exchange Rate ( $E_t$ ) and Relative Price Level ( $P_t$ ) by Frequency and by Period.
- 12.6 The 'Phase Spectrum' for Exchange Rate ( $E_t$ ) and Relative Price Level ( $P_t$ )
- 12.7 Overview of Findings From the Spectral Analysis:

## CHAPTER – 13 SUMMARY, CONCLUSION AND POLICY IMPLICATIONS

170-183

- 13.1 Introduction:
- 13.2 Stationarity of Exchange Rate ( $e_t$ ) and Relative Price Level ( $p_t$ ) Series (in Chapter 4) in the Historical Dataset for the Period 1976:1-2006:1
- 13.3. Cointegration Between Exchange Rate ( $e_t$ ) and Relative Price Level ( $p_t$ ) (period 1976:1-2006:1)
- 13.4 Stationarity and Cointegration of Exchange Rate( $e_t$ ) and Relative Price Level( $p_t$ ) Under Two Different Sub-Periods [1976:1 - 1993:1 and 1993:2-2006 :1]
- 13.5 Cointegration between Exchange Rate ( $e_t$ ) and Relative Price Level ( $p_t$ ) in two different Sub-periods [1976:1-1993:1 and 1993:2-2006:1] [Chapter 6]
  - 13.5.1 Cointegration Between  $e_t$  and  $p_t$  at level in the Sub-period 1976:1 - 1993:1
  - 13.5.2 Cointegration Between  $e_t$  and  $p_t$  at Level in the Sub-Period 1993:2 - 2006 :1
- 13.6 Dynamics of Short-Run Shocks and the Stability of Long-run Relationship Between Exchange Rate( $e_t$ ) and Relative Price Level ( $p_t$ ) [Chapter 7]
- 13.7. Causal Relationship Between Rupee / Nepalese Rupee Exchange Rate and Relative Price Level in the Long-run [Chapter 8]
- 13.8 Intervention Analysis Through the Study of Impulse Response Function [in Chapter 9]
- 13.9 Intervention Analysis Through The Study of Variance Decomposition [ in Chapter 10]
- 13.10 Study of Granger Causality Between Exchange Rate and Relative Price Level Through the Estimation of a Restricted

VAR Model [in Chapter 11]

- 13.11 Spectral Analysis of the Relationship Between  
Rupee/Nepalese Rupee Exchange Rate ( $E_t$ ) and Relative  
Price Level ( $P_t$ ) in the Sub - Period 1993:2 - 2006:1 [Chapter 12]
- 13.12 Conclusions:
- 13.13 Public Policy Implications:
