

Acknowledgement

It is a great moment of happiness to express my deep sense of gratitude to my supervisors, Prof. Bishwanath Chakraborty and Prof. Usha Chakraborty, Immuno-Phytopathology Laboratory, Department of Botany, University of North Bengal for their immense effort to complete this venture. It wouldn't have been possible for me to complete my thesis without their noble guidance, encouragement and valuable suggestions.

I would like to offer my sincere thanks to the Head, Department of Botany, all other faculty members and non teaching staff of this Department, for providing necessary facilities to carry out my research work,

I take this opportunity to express my sincere thanks to the Manager and Asst. manager of Temi Tea Estate, Govt. of Sikkim undertaking for their kind co-operation.

I extend my gratitude to Global Plant Clinic, Diagnostic Clinic and Advisory Laboratory, CABI, UK Center, United Kingdom for identifying bacterial culture and also to the Director, of Bose Institute, Kolkata for providing facility of Scanning Electron microscope.

Financial assistance received from the Dept. of Biotechnology, Govt. of India and HRDD, Govt. of Sikkim is gratefully acknowledged.

I shall be failing in my duty if I do not acknowledge the enormous support and assistance received from research scholars, Utanka da, Sanjita di, Pannalal, Kiran, Arka, Sweta, Deepti, Rohini, Bhumika, through out this endeavor. I wish to thank Mr. Babul Biswas for editing the matter of this thesis and field men for maintaining plants in good condition.

Last but not least, mention must be made of my parents, brothers, sisters, husband Sonam Tashi, my little daughter Yangdol, all family members and friends, without their continuous moral support and relentless encouragement this endeavor would not have been successful.
