

ACKNOWLEDGEMENT

At this moment of writing my thesis I must avail the opportunity to convey my deep regards and gratitude to my teacher and supervisor Dr P.Bandyopadhyay for his constant guidance, valuable suggestions and encouragement at every stage of my course work.

I am also grateful to all the teachers of my department for their valuable suggestion which inspired me all along my course work. I must convey my deep respect to all of them.

I must not fail to express my gratitude and regards to Professor S.K.Mazumder for his valuable guidance, inspiration and affectionate behaviour which inspired me all along.

I express my sincere thanks to Professor S.Mitra, Tata Institute of Fundamental Research, Bombay, Professor R.N.Mukherjee, IIT, Kanpur, and Professor A.R.Chakravorty, Indian Institute of Science, Bangalore for their kind help to get NMR spectra.

I am especially grateful to Mr.H.Biswas, A.C.College, Jalpaiguri, for his unfailing encouragement and helpful assistance from the very beginning of my research work.

I am greatly indebted to Mr A.K.Roy, Dr P.K.Mandal,

Dr.D.P.Boot and Dr.S.Sarkar who have helped me immensely in many ways in my work.

Valuable help rendered by my colleague Mr.S.Mitra deserves a special mention.

I wish to thank to all of my coresearch workers and in particular to Miss P.Das, Dept of Physics for their valuable help and cooperation.

I am thankful to all staffs of my department for their friendly assistance. Thanks are also due to scientific staffs of University Scientific and Instrumentations Centre, University of North Bengal.

I express my sincere gratitude towards my parents, brothers and sisters for their love, encouragements and keeping me aloof of the family responsibilities.

Financial supports provided by Council of Scientific & Industrial Research , New Delhi is gratefully acknowledged.

Finally I gratefully acknowledge the help of the University of North Bengal for providing me a research fellowship during this work.
