

# C O N T E N T S

	<u>Page</u>
<b>Chapter-1: <u>Introduction</u></b>	
Section A : Review of previous work	1-18
Section B : Ion Exchange Formulation	19-26
<b>Chapter-2:</b>	
Scope and Object	27-30
<b>Chapter-3:</b>	
Preparation of Samples and Analyses	31-36
<b>Chapter-4: Characterisation of Humic Acid Fractions</b>	37-63
Section A : Potentiometry	37-49
Section B : Viscometry	50-52
Section C : Polarography	53-56
Section D : Spectroscopy	
(i) Visible Spectroscopy	57-59
(ii) I.R. Spectroscopy	60-63
<b>Chapter-5: Exchange behaviour of <math>\text{Coen}_3^{3+}</math> in humic acid fractions</b>	64
Section A : Materials and methods	64-73
Section B : (i) Uptake of $\text{Coen}_3^{3+}$ by natural humic acids	74-76
(ii) Uptake of $\text{Coen}_3^{3+}$ by synthetic humic acids.	76-77

	<u>Page</u>
Section C : (i) Release of $\text{Coen}_3^{3+}$ from Coenz <sub>3</sub> -complexes of natural humic acids.	78-94
(ii) Release of $\text{Coen}_3^{3+}$ from Coenz <sub>3</sub> -complexes of synthetic humic acids.	95-108
Section D : (i) Uptake of $\text{Coen}_3^{3+}$ by natural hymatomelanic acids.	109-110
(ii) Uptake of $\text{Coen}_3^{3+}$ by synthetic hymatomelanic acids.	110-111
Section E : (i) Release of $\text{Coen}_3^{3+}$ from Coenz <sub>3</sub> -complexes of natural hymatomelanic acids.	112-125
(ii) Release of $\text{Coen}_3^{3+}$ from Coenz <sub>3</sub> -complexes of synthetic hymatomelanic acids	126-133
Section F : (i) Uptake of $\text{Coen}_3^{3+}$ by fulvic acids	134-135
(ii) Release of $\text{Coen}_3^{3+}$ from Coenz <sub>3</sub> -complexes of fulvic acids.	136-149

**Chapter-6:**

I.R. Spectra of Coenz<sub>3</sub>-complexes of humic acid fractions. 150-153

**Chapter-7:**

Summary and conclusions 154-167

Bibliography 168-176
