

CONTENTS

Chapter-1 An Introduction to the Study	1-30
1. Introduction: Role of Education in Development	1
1.1 The Indian Experience	4
1.2 Statement of the Problem	7
1.3 Study Objectives	11
1.4 Review of Related Literature	11
1.5 Major Research Hypothesis	22
1.6 Research Methodology, Area of Study and Database	23
1.7 A Brief Introduction of the Study Region	24
1.8 Chapterisation	25
Chapter-2 An Overview of the Educational Progress in India since 1951	31-65
2. Introduction	31
2.1 Progress in Education in pre-Independent India	32
2.2 Elementary Education in post-Independent India	34
2.2.1 Public Expenditure on Elementary Education	36
2.2.2 Aggregate Educational Expenditure in India (1951-52 to 2001-02)	39
2.2.3 Public Expenditure on Education over the Plan Period	41
2.3 Sectoral Allocation of Educational Expenditure (1990 - 2004)	43
2.3.1 Social Sector Expenditure: The Recent Trend	44
2.3.2 External Funding in Elementary Education	45
2.4 Trend in Elementary Schooling in India: 1951-2001	46
2.4.1 Enabling Attributes of Elementary Education	47
2.4.2 Gender Disparity in Elementary Education: Enrolment, Dropout	49
2.5 Pattern of Literacy Development in India	52
2.6 Recent Issues and Policies towards Educational Development in India	55
2.6.1 Key Areas of Concern	56
2.6.2 Policy Initiatives	66
2.7 Concluding Observations	60
Chapter-3 Educational Backwardness in India: An Inter-State Comparison	66-87
3. Introduction:	66
3.1 Performance of the Indian States: Literacy Trends in India - 1951-2001	67
3.2 Major Achievements in Literacy Rate by States (1991-2001)	70
3.3: Literacy Index	72
3.3.1 Methodology of Principal Component Analysis (PCA)	73
3.3.2 Construction of Index	74
3.3.3 Inferences on the PCA Results	75
3.4 Review of Elementary Education in India: Schooling Status in India	77

3.4.1 Institutional Structure of Education in India	78
3.4.2 Educational Performance: Primary Grade Completion and Dropout Rate	80
3.4.3 Access to Public Education	82
3.5 Educational Development Index	83
Chapter-4 District Level Variation in Elementary Schooling and Literacy Rate in West Bengal	88-119
4. Introduction & Need for the Study	88
4.1 Objectives of the Present Study	89
4.1.1 Methodology and Data Collection	90
4.2 General Profile of the State of West Bengal	90
4.2.1 Educational Indicators in West Bengal and India	92
4.3 Literacy Achievement in West Bengal	93
4.3.1 Progress of Literacy in West Bengal:	93
4.3.2 Literacy Spectrum of the Districts of West Bengal, Census 2001	97
4.3.2 Gender Bias in Literacy Rate	97
4.4 Decadal Variation in Literacy Rate	99
4.4.1 Dimensions of Variation in Literacy Rate	100
4.4.2 Literacy Variation at Village Level: Educationally Deprived Villages in Rural West Bengal	101
4.5 Factors Explaining the Literacy Variation in West Bengal: Multiple Regression Analysis	103
4.5.1 Methodology & Data Collection	103
4.5.2 Regression Results and Analysis	103
4.6 Elementary Education in West Bengal: An Alternative Interpretation	107
4.6.1 Review of Educational Indicators	107
4.6.2 District level Performance Indicators	108
4.6.3 Factors influencing Educational Achievements and their Implications	110
4.7 Concluding Observations	112
Chapter-5 Differential Educational Attainment of the Blocks of Uttar Dinajpur District	120-152
5. Introduction: Educational Perspective	120
5.1 An Outline of the District	121
5.2 Literacy Profile of Uttar Dinajpur	123
5.3 Regional Variation in Performance and Enabling Economic Attributes: A Multiple Regression Analysis at Mouza Level	125
5.3.1 The Model	126
5.3.2 Analysis of Regression Results	127
5.3.2a Economic Dependency and Literacy Attainment	130
5.3.2b Female Work Participation and Literacy Attainment	130
5.3.2c Agricultural Dependency and Literacy Attainment	131
5.3.2d Social Backwardness and Literacy Attainment	132
5.3.2e Fertility Change and Literacy Attainment	132
5.4 Review of Elementary Education in Uttar Dinajpur District	133
5.4.1 Institutional Structure of Education in Uttar Dinajpur	133

5.4.2 Madrasah Education	134
5.4.3 Accessibility of Rural Schools in Uttar Dinajpur District	135
5.4.4. State of School-related Educational Infrastructure	137
5.4.5 System Performance and System Load in Elementary Education	139
5.4.6 System Load in Basic Education	140
5.4.7 Availability of School Amenities	143
5.5 School Enrolment & Dropout Trends in Elementary Education System	144
5.5.1 Dropout Rate	145
5.5.2 Non-formal Education in Uttar Dinajpur	147
5.5.3 Institutional Structure of SSK & MSK in Uttar Dinajpur 2006-07	149
5.6 Persisting Educational Gaps in Uttar Dinajpur	150
Chapter - 6 Factors Determining Educational Deprivation in Rural Uttar Dinajpur District: An Empirical Exercise- I	153-191
6 Introduction	153
6.1 Background of the Analysis	154
6.2 Methodology and Study Area	157
6.2.1 Survey Questionnaire	160
6.2.2 Field Work	161
6.2.3 Statistical Technique	161
6.3 Analytical Framework	163
6.4 Socio-economic Characteristics of the Villages under Survey	163
6.4.1 Basic Amenities	163
6.4.2 Population Profile	165
6.4.3 Literacy Profile of the Sample Population in the Concerned Villages	165
6.5 Relevant Data & Variables of the Econometric Application	168
6.5.1 Household Income/Expenditures	168
6.5.2 Occupational Pattern and Literacy Attainment	169
6.5.3 Opportunity Cost of Sending the Children to School	170
6.5.4 Dependency Ratio	171
6.5.5 Role of Female Members in the Household	172
6.5.6 Parental Educational Level and Schooling of Children	172
6.6 Factors Explaining Literacy Rate	174
6.6.1 Regression Analysis	175
6.6.2 Initial Observations on the Multiple Regression Result	176
6.6.3 Interpretation of Regression Coefficients	179
6.6.4 Discussion on Regression Result	181
6.7 Comparison of the Relative Magnitude of Regression Coefficients	183
6.8 Conclusion	184
Chapter - 7 Problems related to Elementary Schooling in Rural Uttar Dinajpur District: An Empirical Exercise II	192-214
7. Introduction & Relevance of the study	192
7.1 Logistic Regression Exercise	194
7.1.1 Modeling a Categorical Dependent Variable	194
7.1.2 The Log of Odds Transformation in Logistic Regression	195

7.1.3 Logit-link Function - The Regression Equation in the Logit Model	195
7.1.4 Odds, Log (odds) and Probability - A Relationship	196
7.1.5 Regression Estimation	197
7.2 The Variables in the Logit Model	197
7.2.1 Selection of Variables	198
7.3 Reporting and Interpreting Logistic Regression Results	198
7.3.1 Frequency Table: Binary Responses	198
7.3.2 Evaluations of the Logistic Regression Model	199
7.3.2.1 Goodness-of-fit indicators for overall model/Overall significance of the model:	199
7.3.2.2 Hosmer and Lemeshow goodness of fit	200
7.3.3 R ² for Logistic Regression	201
7.3.3.1 Predictive Accuracy of the Model: (Expectation-prediction table)	202
7.3.4 Multicollinearity in the Model	203
7.4 Interpretation of Logistic Regression Coefficients	203
7.4.1 The Use of Odds Ratio in the Analysis: A Discussion	206
7.4.1.1 Household Expenditure	206
7.4.1.2 Parental Education	207
7.4.1.3 Nature of Income	207
7.4.1.4 Opportunity Cost of Schooling	207
7.4.1.5 Household Dependency	208
7.5 School Enrolment- Parental Viewpoint: A Qualitative Analysis of Survey Data: Reasons for Enrolment	208
Chapter- 8 Summary, Conclusion and Policy Recommendation	215-229
8. Introduction	215
8.1 Summary Findings	216
8.2 Concluding Remarks	226
8.2.1 Overall Policy Prescription	226
8.2.2 Micro level Policy Intervention	228
Bibliography	230-243
ADDENDUM —	244
