TO WHOM IT MAY CONCERN

I am pleased to certify that Mita Chakraborty has been prepared her Thesis entitled "Horticulture in West Bengal - A Geographical Analysis" under my supervision. She prepared the Thesis based on primary data and information collected from the field study in different parts of West Bengal. The data is supplemented by secondary sources in some cases. The work is original one and so far my knowledge goes no one worked in the field of horticulture of West Bengal. The objectives and methodology in the Thesis are cleared and appropriate in such type of study.

I hope, the Researchers, Planners and others in these fields will be benefited from the Thesis in future. Even in many odds she prepared the Thesis with available data and information.

I wish her success in future work.

  
(Dr. M. M. Jana)  
Supervisor.
